**STATISTICAL
ABSTRACT, INDIA
1956-57**

New Series

No. 7

Issued by
**Central Statistical Organisation
Cabinet Secretariat
Government of India**

Published by the Manager of Publications, Delhi
Printed by the Government of India Press, New Delhi, India
1958

Price Rs. 18.00

P R E F A C E

The present issue of the Statistical Abstract incorporates in a single Volume the latest available data under the important heads of economic and social development. In addition to national aggregates for a period of five to ten years generally, information in respect of individual States (reorganised) of the Indian Union is, given for the latest available year. Every year the Abstract introduces new material and eliminates relatively less useful data. The alterations made have been listed in tabular statements on pages (x) to (xii)

2. The publication would serve not only as a convenient source of reference but also as a key to other statistical publications of Central Government agencies. The primary sources are indicated at the foot of each table; the relevant publications of the Departments mentioned will furnish more detailed information. The various sections of the Abstract are preceded by brief explanatory notes which are intended to be read in conjunction with the tables.

3. The continuing co-operation and suggestions for the improvement of the Abstract received from the various Ministries of the Government of India, the State Governments and the public are acknowledged with gratitude.

4. The following symbols have been used throughout the Abstract :

.. = Not available
— = Negligible or nil.

5. Some of the units of measurements used are explained below :

One lakh = 100,000
One Crore = 10,000,000
One maund = 82 2/7 lb. = 37.345 kg.
One ton = 2,240 lb. = 1.016 metric tons
One Cwt. = 112 lb. = 50.8 kg.
One lb. = 0.4536 kg
One yard = 0.9144 metres
One acre = 4840 Sq. yds = 0.4047 hectares
One rupee = 16 annas, 64 pice or 192 pies (old)
= 100 naye paise.

6. For the conversion of temperature in Fahrenheit (F) to Centigrade (C) the relation is $C = 5/9 (F-32)$

Issued by

**Central Statistical Organisation,
Cabinet Secretariat.**

CONTENTS

SECTION	PAGE
1 CLIMATE	1
Rainfall : normal and actual—temperature : monthly maximum and minimum, monthly mean—sunshine.	
2 AREA AND POPULATION	20
Area and Population : by States and districts,—Population : cities, density—land area : topographical distribution—age, civil condition, livelihood—Employees, employers, workers.	
3 MIGRATION	42
Emigrants : skilled and unskilled—ports : departure, destination—emigrants, returned from abroad—passengers carried in un-berthed passenger-ships.	
4 PUBLIC HEALTH AND VITAL STATISTICS	54
Birth rate—death rate—Ratio of deaths—private and public hospitals and dispensaries : number of beds, patients, income and expenditure—Railway hospitals and dispensaries—diseases—mental hospitals	
5 EDUCATION	76
Educational institutions—scholars—expenditure—teachers rural education and expenditure—examination results—education of Scheduled castes, etc.	
6 PRINTING PRESSES AND PUBLICATIONS	117
Presses at work, newspapers, periodicals, books published—books in Indian languages.	
7 JUDICIAL AND ADMINISTRATIVE STATISTICS	121
Judicial divisions, officers, cases, results of trials, appeals—Civil cases—criminal cases, punishments inflicted, acquitted, discharged—registration of documents—civil police : strength and cost—crimes : cognizable and non-cognizable—property : stolen and recovered—Police Force : equipment and general management—Police offences—prisoners, convicts, jails—sickness, mortality, expenditure—Mark system.	
8 NATIONAL FINANCE	218
Revenue and expenditure on revenue account : Central and State Governments—Revenue and expenditure : Customs, Central Excise duties, Corporation tax, Income-tax : Opium—Revenue and expenditure.	
9 INCOME TAX	284
Classification of demand : Income-tax, super tax, and surcharge	

SECTION	PAGE
10 LOCAL BODIES	327
Population, constitution, income, expenditure—Municipalities, District and Local Boards, Port trusts—Municipalities with population of 50,000 and above.	
11 EXCHANGE, COINAGE AND CURRENCY	357
Currency, Gold and Silver—Money rates—Exchange rates—Prices : Government Stock, Silver and Gold—Sterling purchases and sales—Government Promisory notes enfaced for payment of interest—money coined and re-coined—Gold and Silver : Exports and Imports—Notes issued—notes in circulation—Absorption of Currency.	
12 PRICES CURRENT	378
Index number of wholesale prices—wholesale prices of staple articles Working Class Consumer Price Index—Security Prices.	
13 BANKS	403
Capital, Cash liabilities, cheque clearances.	
14 JOINT STOCK COMPANIES	411
Companies at work : number, paid-up capital, companies liquidated—companies registered elsewhere—Index of Industrial profits.	
15 INSURANCE	437
Indian life insurers—Postal Insurance Fund—Fire, marine and miscellaneous Insurance Companies.	
16 CO-OPERATIVE SOCIETIES	450
Central, agricultural, non-agricultural : number, membership and financial position.	
17 AGRICULTURE	459
Land utilization statistics—area—yield—agricultural production Index—average yield— agricultural implements and machinery—Grow more Food campaign—Land Revenue and assessment—Land Holdings.	
18 IRRIGATION	500
Area and Crops under irrigation—Principal Irrigation Works, Results of operation—Inland Navigation on Irrigation works	
19 FORESTS	518
Area and outturn—Protection of Forests—Regeneration and afforestation—Employment in forestry and forest industries.	
20 SERICULTURE	525
Total Production : Mulberry, and non-Mulberry silk.	
21 LIVESTOCK STATISTICS	531
Livestock and Livestock produce—Fish catch and disposition	
22 MINERAL PRODUCTION	539
Production of minerals and ores, Quantity Index of Mineral Production— Mines : Working of.—	
23 LABOUR	552
Employment : Central Government, Public Works, State Transport Services, Municipalities, Factories, Mines, Plantations, Shops and Commercial Establishments, Employment Service, Earnings, Accidents, Industrial Disputes, Workmen's Compensation, Labour training, Agricultural Labour.	

SECTION	PAGE
24 TRADE UNIONS	620
Registered Trade Unions—Workers' Unions, Employers' Unions— Number, membership, income, expenditure and funds.	
25 INDUSTRIAL PRODUCTION	628
Census of Manufacturing Industries—Mill Production : Cotton piece- goods, Cotton yarn—Selected Industries—Indices of Industrial Production.	
26 PATENTS AND DESIGNS	679
Number of applications—Income from fees.	
27 RAILWAYS	684
Summary—Passengers—Goods—Capital-at-charge—Earnings and Expenses—Accidents to persons.	
28 MOTOR VEHICLES	701
Number taxed—Motor vehicle fees and taxes	
29 ROADS	707
Extra—municipal roads : mileage—Central Road Fund.	
30 SHIPPING	713
Vessels entered and cleared with cargoes or in ballast, Foreign and Country Trade—Shipping at five principal ports—Vessels belong- ing to or registered in India—Vessels first registered in India.	
31 CIVIL AVIATION	729
Indian Airlines operations—Scheduled internal and international Services.	
32 POSTS AND TELEGRAPHS	732
Post office : letters, postcards, newspapers, parcels, packets, money orders, savings bank, capital account—Telegraph and Telephone : Offices and lines—Radio telegrams.	
33 OVERSEAS COMMUNICATIONS SERVICE	749
Traffic : Telegraph, Telephone, Radiophoto : Words and Value— Multiaddress newscasts—Expenses : Capital, Revenue and working expenses	
34 MERCHANDISE MARKS	754
Detentions.	
35 TRADE	756
(A) Foreign —By Sea, Air and Land.	
Merchandise and Treasure : Imports, Exports and Re-exports : Countries of a consignment or destination—Currency area-wise— Principal articles of merchandise—Indices of Quantum and price level—Land Frontier Trade : Tibet, Nepal, Sikkim, and Bhutan Balance of trade.	
(B) Coasting	
Total value: merchandise and treasure.	
(C) Inland	
Rail and River-Borne Trade—Principal articles—States and Chief ports.	

SECTION	PAGE
36 BALANCE OF PAYMENTS	789
Current Account—Capital Account—Currency area-wise	
37 MISCELLANEOUS	796
Consumption of electricity—Salt : manufacture, issue and price— Liquor, opium and other intoxicating drugs : Number of shops, —Opium, cultivation, production and issues.	
38 APPENDIX	805
Rates of Excise duties : Union and State—Rates of Income-tax and Super-tax—National income of India—Electoral Statistics—Sche- duled Tribes.	

(ix)
LIST OF CHARTS

Facing page No.

1. Rain-fall in India	1
2. Area and population, 1951	20
3. Progress of education	78
4. Revenue and Expenditure on Revenue Account (Central Government)	218
5. Prices of gold and silver	360
6. Note circulation and absorption of currency	380
7. Index number of wholesale prices and Consumer Price Index Number	412
8. Joint-stock companies at work	450
9. Progress of co-operation	460
10. Index of agricultural production	540
11. Value of mineral production	556
12. Factory employment and average annual earnings per worker	630
13. Index of industrial production	686
14. Railways (total route mileage, traffic and net earnings)	762
15. Foreign trade	790
16. Balance of payments (current account)	836
17. National income by industrial origin (at current prices)

**STATEMENT SHOWING THE TABLES ADDED IN THE
CURRENT ISSUE (1956-57)**

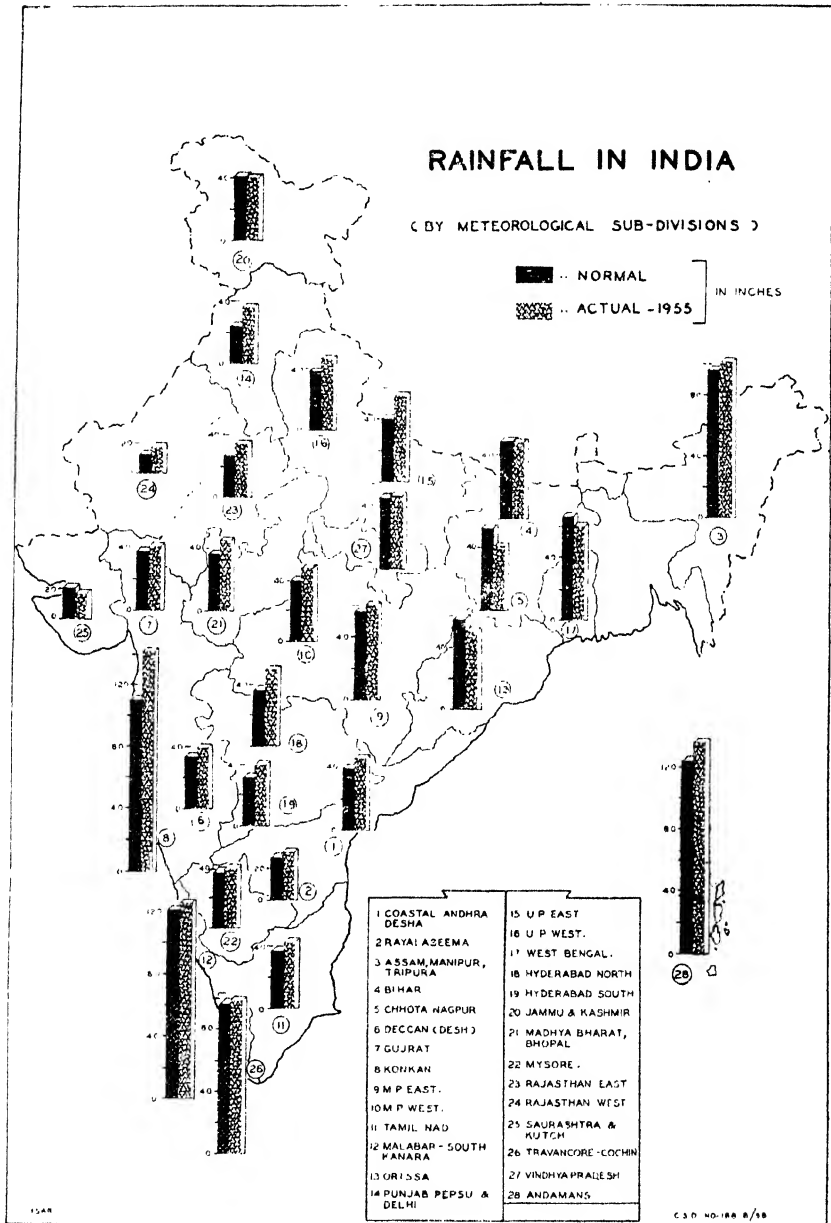

Serial No.	Table No. in the Current issue (1956-57)	Description
EDUCATION		
1	41	Education of Scheduled Castes and Tribes.
INCOME TAX		
2	86	Income Tax payable from dividends according to grade of income and class of assesseees.
3	87	Income Tax payable from Securities according to grade of income and class of assesseees.
LIVE STOCK STATISTICS		
4	163	Fish Catch and Landings by groups of species.
5	164	Disposition of Fish Catch.
MINERAL PRODUCTION		
6	166	Quantity Index of Mineral Production.
INDUSTRIAL PRODUCTION		
7	197	Mill production of Cotton Yarn.
8	199	Loom—state production of Cotton piece goods (by Categories).
9	200	Mill production of Cotton piece-goods by varieties.
POSTS AND TELEGRAPHS		
10	228	Number of permanent post offices, letter boxes, rural postmen, postal articles (excluding money order) and mileage of mail lines (excluding Air lines).
TRADE		
11	252	Imports of principal articles of foreign merchandise (value).
12	253	Exports of principal articles of Indian merchandise (value).

**STATEMENT SHOWING THE TABLES DELETED FROM
THE CURRENT ISSUE (1956-57) AS COMPARED
WITH THE PREVIOUS ISSUE (1955-56)**

Serial No.	Table num- ber in the previous issue (1955-56)	Description
AREA AND POPULATION		
1	8	Distribution of urban population.
2	9	Distribution of rural population.
EDUCATION		
3	39	Sources of expenditure on recognised education (by management).
INCOME TAX		
4	90-91	Classification of assesses according to the grade of net income—All India and State-wise.
EXCHANGE, COINAGE AND CURRENCY		
5	107	Purchase and Sales of Silver
JOINT STOCK COMPANIES		
6	127	Increase (+) or Decrease (—) in number and paid-up Capital of Joint Stock Companies registered and at work.
AGRICULTURE		
7	150	Percentage distribution of land holdings—1950-51.
LIVESTOCK STATISTICS		
8	168	Production of meat and eggs in India
9	169	Production of skins in India
LABOUR		
10	194	Agricultural labour.
TRADE		
11	253	Quantity and value of imports of principal articles of merchandise into India from foreign countries.
12	254	Quantity and value of exports of principal articles of merchandise (Indian produce and manufactures) from India to foreign countries.
13	255	Quantity and value of re-exports of principal articles of merchandise (foreign produce and manufactures) from India to foreign countries.
14	257	Value of imports of merchandise by currency areas.
15	258	Value of exports of merchandise by currency areas.
16	259	Value of re-export of merchandise by currency areas.
17	265	Land frontier trade with Pakistan, Afghanistan, Iran and Burma (Imports).
18	266	Land frontier trade with Pakistan, Afghanistan, Iran and Burma (Exports).

**STATEMENT SHOWING THE CHANGES EFFECTED IN THE
TABLES IN THE CURRENT ISSUE (1956-57) AS
COMPARED WITH THE PREVIOUS
ISSUE (1955-56)**

Serial No.	Table No. in the previous issue (1955-56)	Table No. in the current issue (1956-57)	Change effected
PUBLIC HEALTH			
1	31	31	Sex classification, re-admission of patients, receipts, etc., have been omitted.
EDUCATION			
2	35-A & 35-B	33	Information for all-India and States has been combined in one table. Separate figures for University, and Boards of Education have been shown. Information for unrecognised institutions has been omitted.
3	36-A, 36-B, 37-A, & 37-B	34	Information regarding All-India and States in respect of General and Professional Education has been combined in one table. Information regarding unrecognised institutions has been omitted.
4	38	35	Separate information for funds from Central Government, State Governments, District boards, Municipalities and endorsements has been shown.
5	40-A & 40-B	36	Information regarding All-India and States, has been combined.
6	41	37	Additional information regarding No. of teachers in professional schools, arts and science colleges, technical and special colleges and all educational institutions has been added.
EXCHANGE, COINAGE AND CURRENCY			
7	102	99	Quotations representing the actual prices of Government of India securities as against the discount as premium over the face value have been given.
BANKS			
8	122 (c)	118 (c)	Exchange Banks have been replaced by Foreign Scheduled Banks.
JOINT STOCK COMPANIES			
9	129-A & 129-B	124-A & 124-B	Paid up Capital column has been dropped.
INDUSTRIAL PRODUCTION			
10	202	198	State details have been deleted.
11	203	199	State details have been deleted.
TRADE			
12	260	254	Import value of gold, instead of treasures has been given).
13	261	255	Export value of gold, instead of treasure, has been given.

CLIMATE

Meteorological data are recorded at some 250 observatories of the Indian Meteorological Department and over 2,500 rain recording stations maintained by the respective State Governments.

The meteorological divisions shown correspond more or less to the chief political divisions and have remained unchanged for a long time except for mergers and the formation of new States. All figures up to 1946 relate to undivided India; thereafter to the present territory of the Indian Union.

Rainfall.—Actual rainfall is recorded at 8-00 hours I.S.T. each day throughout the country. The amounts measured give the rainfall of previous 24 hours. The rainfall data are tabulated at the offices of the State Officers controlling registration of rainfall and published in the State Gazettes. They are subsequently consolidated and issued by the Indian Meteorological Department in the form of two publications each year, *viz.* "Daily Rainfall of India" and "Monthly Rainfall of India".

Normal rainfall.—The minimum length of the period used for working out the normal rainfall of any station is five years and the maximum is eighty years. Normals of rainfall of about seventy five per cent of the rainguage stations are, however, based on data for thirty years or more.

Table 1 shows the normal and actual rainfall for the various meteorological sub-divisions of the country for the years 1946—55. Table 2 gives monthly and annual rainfall during 1955 and also total annual rainfall for 1951 to 1955 with percentage departures from normal.

Temperature.—Temperature readings are taken at most of the observatories twice a day at 8-00 and 17-00 hours I.S.T. For this purpose thermometers are put in the shade in "Stevenson Screens". Table 3 contains monthly figures for mean maximum and minimum temperatures for the year 1955. It also gives annual figures for maximum and minimum temperatures in the years 1951 to 1955. *Mean temperature* is the average of the maximum and minimum temperatures recorded. Only monthly mean figures for 1955 are shown in Table 4.

Sunshine.—Sunshine is the condition at the earth's surface when the sun casts a well-defined shadow. It is recorded at the principal observatories by standard recorders. Monthly data are shown for 1955 and annual from 1948 to 1955 as far as possible in Table 5.

These data are published in greater detail in the "Monthly Weather Reports" and the "India Weather Review—Annual Summary", brought out by the Meteorological Department.

AREA AND POPULATION

This section provides an abstract of the available data concerning the area and population of the Indian Union based on the Census of Population of 1951 since rearranged. As a result of States' reorganisation on the first of November 1956.

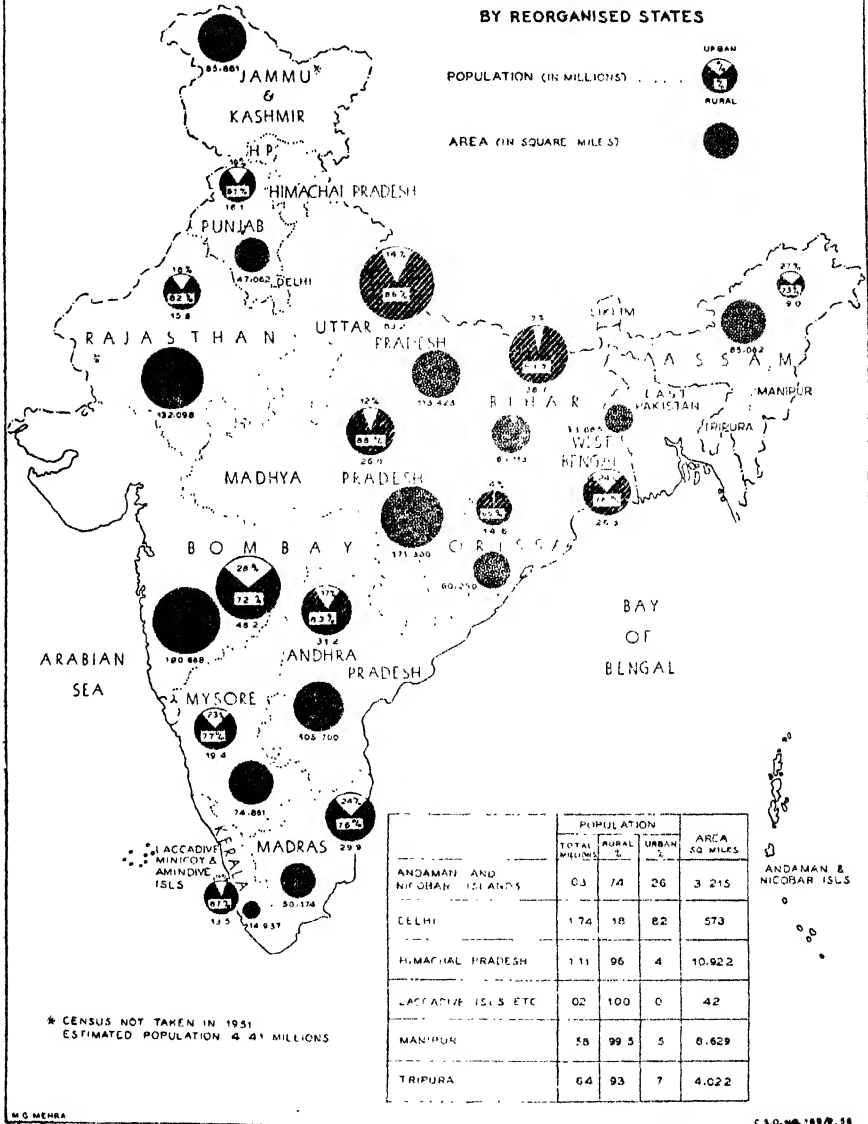

For the purpose of Tables, 6, 7 and 8, localities which have distinct urban features have been regarded as "towns". The tests prescribed in this regard (for distinguishing towns from villages) were based on ideas common to all States but not identical; nor were they applied with meticulous uniformity. Generally an urban area was defined as: (1) any area which has Local Body administration, (irrespective of its population) and (2) any other continuous group of houses inhabited by not less than 5,000 persons and having distinct urban characteristics, *viz.*, centre of trade or commerce, high density of dwellings, existence of public utility services or dependence of a higher proportion of population on non-agricultural means of livelihood. For the country as a whole, the percentage of population living in towns with less than 5,000 persons is only about 3.3% while that of persons living in villages with population above 5,000 is 5.3%.

In Table 13, the total population is divided into two main livelihood categories, *viz.*, (a) Agricultural and (b) Non-agricultural. Each main category is again sub-divided into four sub-categories namely (a) (1) Cultivators of land wholly or mainly owned and their dependents (2) Cultivators of land wholly or mainly unowned and their dependents (3) Cultivating labour and their dependents (4) Non-cultivating owners of land, agricultural rent receivers and their dependents and (b) (1) Production other than cultivation (2) Commerce (3) Transport and (4) Other Services and Miscellaneous.

Table 14 is devoted to self-supporting persons of non-agricultural classes which have been classified under Industries and Services with reference to the nature of the commodity produced or the service rendered by them. Self supporting persons are further divided into Employers, Employees and Independent workers.

Source Ministry of Home Affairs.

(1) No census was conducted during 1951 in Jammu and Kashmir. The area of the State is 85,861 sq. miles and Registrar General's estimate of population as on 1-3-51 was 4.41 millions. The area of Sikkim is 2,744 sq. miles and the population according to the 1951 Census was 137,725. Tribal areas of Assam were also not included in the 1951 census. A local estimate of population placed it at 561 thousand persons.

(a) Includes 32,289 square miles of Tribal Areas of Assam where no census was taken in 1951. For calculating the density this area has been excluded.

Total Population (excluding displaced persons)	82,253,086	82,387,997	9,033,458	21,811,014

NOTE:—The age table of the 1951 census is not based on the entire population. A ten per cent, sample of the population (excluding displaced persons) was taken at the preliminary sorting of the enumeration slips for every village and ward of a town. The data are based on this sample population. In this table the sample data for males and females have been raised with reference to the total male and female population respectively of each zone and the all-India figure has been arrived at by adding up the zonal figures.

a) Figures for this sub-division are included under sub-division 8 8 Employees of union Government.

(b) Does not include persons classifiable under any other divisions or sub-divisions.

MIGRATION

Available statistics relating to the movement of population between India and other countries are given in this section.

Emigration.—“Emigrant” for the purpose of these statements mean any person who migrates or has migrated or has been registered as such under the Indian Emigration Act, 1922. Emigrants who proceeded to different countries and were repatriated therefrom under some rule or convention or otherwise assisted to return have been shown separately. They exclude passengers on unberthed passenger-ships (explained in a later paragraph), who returned on their own. Total figures according to sex and occupation are shown for a period of nine years from 1948 to 1956 and in addition further classification according to countries of destination is given for the latest years 1955 and 1956.

Ports of embarkation with number of emigrants are shown separately.

The primary statistical data in each case are compiled by the Protectors of Emigrants at ports. This information is consolidated by the Ministry of External Affairs in the *Annual Report on the Working of the Indian Emigration Act, (1922)*.

Passengers by unberthed passenger-ships.—These tables deal with the number of passengers carried in unberthed passenger-ships from ports in India on different kinds of voyages. An unberthed passenger-ship means a ship carrying more than 30 unberthed passengers. The term ‘unberthed passenger’ denotes a passenger not less than 12 years of age for whom no separate accommodation in any cabin, state room, or saloon is reserved; this term does not include a passenger in attendance on a berthed passenger-ship, nor a child of less than one year of age. A passenger between the ages of one and twelve years is counted as half towards the total number.

The voyages are classified as “long” and “short”. The distinction between the two is that when a ship is expected to be continuously out of port for more than 120 hours it is said to be on a long voyage; otherwise on a short voyage. Long voyage figures are given for ports of destination out of India while short voyage figures are sub-divided into three classes *i.e.* to ports (1) within the same State, (2) beyond the State but in India and (3) out of India. Total figures for all the above categories are given from 1947-48 to 1956-57. Detailed figures from 1950-51 are also shown giving the number of passengers from each port of departure to each port of destination on long and short voyages. The Mercantile Marine Department, Ministry of Transport collect these statistics from the agents of the shipping companies under the Indian Merchants Shipping Act, XXI of 1923.

PUBLIC HEALTH AND VITAL STATISTICS

Available information concerning vital and public health statistics in India is shown in the tables under this section. Data in greater detail are published by the Ministry of Health, Government of India, and the various State authorities in the form of periodical reports. The information relates to all States of the Indian Union, unless otherwise specified. The latest year for which vital statistics are available is 1955. While the figures for that year are shown in greater detail, corresponding figures for the earlier years are shown in totals only.

Birth rates and death rates are the rates per thousand of mid-year population. The infant mortality rates are expressed as the number of deaths amongst infants under one year of age per thousand live births recorded during the period. Registration areas are the former Indian Provinces where registration of births and deaths is compulsory.

Table 23 shows the actual number of births and deaths in registration areas, their sex distribution and the ratio between the two. The death rate is further classified into Urban and Rural according to the cause of death and according to the season and month of the year.

Table 24 shows the State-wise distribution of death rates classified into Male and Female and into Rural and Urban, while Table 25 shows the birth rates State-wise and the excess of births over deaths, or vice versa, per 1,000 of population.

Table 26 shows death-rate per 1000 of population, State-wise, according to cause of death. The more commonly known epidemics are shown separately, while the other diseases are grouped together. Comparative rates of deaths from various causes in some cases reveal wide variations between different States but it is difficult to give any reason for the variations. Hence, inter-State comparisons may not be strictly valid. However, the figures may be used for comparisons over a period of years for the same area.

The number of hospitals and dispensaries run by Government and the State-wise distribution is shown in Table 27, together with the number of patients treated indoor and outdoor, and the number of beds available. The income and expenditure of these hospitals, the sources of income and classification of expenditure State-wise are also shown in this table.

Similar data concerning Special, Railway, Private, Non-aided and Subsidised hospitals are shown in the next table. The succeeding table lists the diseases, and also gives the total number of patients treated and the total number of deaths (indoor) of such patients in hospitals and dispensaries. Table 30 shows the corresponding State-wise distribution of patients treated and number of deaths indoor under such disease for the latest year for which these data are available.

Data concerning mental hospitals are separately shown in Table 31. Detailed information regarding the number of patients admitted during the latest year, number discharged and number who died, with State-wise distribution according to sex, as also the expenditure incurred by Government, receipts and net cost to Government on account of these hospitals, is given in this table.

No. 23.—SUMMARY OF BIRTHS AND DEATHS IN INDIA

	1955	1954	1953	1952	1951	1950	1949
1	2	3	4	5	6	7	8

EDUCATION

General Summary.—From 1949-50, the information contained in this section covers all the former Part A, B, C and D States. The information in respect of North East Frontier Agency has been included in 1954-55 for the first time.

TABLE 32

The summary table is meant to give a general idea of the educational development in the country from 1949-50 to 1955-56. State-wise details are given in case of 1955-56 only. As co-education is largely in vogue, the information regarding the number of institutions and scholars studying in them, does not mean that only men and women are exclusively studying in them. However, to give an idea of the comparative growth of education among men and women, the total number of men and women scholars in all institutions are also given separately.

The terms "Men" and "Women" connote "Boys" and "Girls" wherever relevant.

Information about expenditure relates to recognised institutions only. By direct expenditure is meant expenditure directly connected with the maintenance of an institution viz. salary of teachers and other recurring expenditure, while indirect expenditure means all expenditure on inspection, direction, miscellaneous, etc.

TABLE 33

Number of Recognised Educational Institutions.— In this table data on the various types of recognised institutions for men and women, are given for the period 1949-50 to 1955-56. *Recognised* institutions are those which are recognised by the Government and offer the prescribed courses of study. They are open to inspection and general direction by the Education Department of Government and their pupils are ordinarily eligible for admission to public examination and tests held by the Dept. or University.

TABLE 34

Number of Scholars in Recognized Institutions by Stages of Instruction (General Education).—This table shows the number of men and women scholars in Part A, B, C and D States receiving instructions at various stages of general education. In the other part of the Table,

number of men and women scholars receiving instructions in various subjects of professional and special education is also shown.

All India totals are given for the years starting from 1949-50 while State-wise details are given for the year 1955-56.

TABLE 35

Expenditure on Recognised Educational Institutions (by Sources).—This table gives the distribution of total expenditure according to the sources from which the finances are drawn. State-wise details are given for the year 1955-56 and totals for the previous years.

TABLE 36

Expenditure (by types of Education).—This table shows the total expenditure on recognised institutions. Distribution by types of institutions is shown in the case of direct expenditure while totals for all institutions for men and women are given for indirect expenditure.

TABLE 37

Teachers in Educational Institutions.—This table shows the number of men and women teachers in different types of recognised Institutions *viz.* primary schools, secondary schools, etc. Teachers are classified to show how many are trained and how many untrained in schools for general education.

State-wise details are given for year 1955-56 and totals for the previous years.

TABLE 38

Number of Institutions and Scholars in Rural Areas.—This table shows the progress of education in rural areas, *i.e.* the areas outside the limits of municipal, cantonment, notified and small-town committees. The various types of institutions for men and women have been enumerated. The enrolment shown in this table relates to the number of scholars (men and women separately) coming from rural areas, irrespective of whether they are studying in institutions located in rural areas or urban areas.

State-wise details are given for 1955-56 and totals for the previous years.

TABLE 39

Expenditure on Rural Education (by Sources).—Classification of expenditure on rural education both direct and indirect is given in this table by sources. State-wise details are given for year 1955-56 and totals for the preceding years.

TABLE 40

Examination Results.—This table gives State-wise distribution of scholars who passed matriculation and other University Examinations. State-wise details are given for the year 1955-56 and total number of passes for earlier years.

TABLE 41

Education of Scheduled Castes and Backward Tribes.—This table shows the progress of educational facilities including scholarships and stipends given to Scheduled Castes, Scheduled Tribes and other backward classes. The number of pupils shown here is inclusive of those reading in institutions meant for all communities. The number of institutions and pupils given in this table are also covered in earlier tables.

JUDICIAL AND ADMINISTRATIVE

This section presents information relating to the administration of Civil and Criminal Justice, Registration, Police and Prisons. The data have been compiled from the returns furnished by the State Governments. Information upto the year 1948 was collected from the former Provinces alone. However, in the Civil and Criminal Justice portions, the figures for 1948 are inclusive of Bhopal, Bilaspur and Tripura also. Those for Registration during 1948 also include Travancore-Cochin in addition to the above three states.

An attempt has been made to collect the data since 1949 on an all India basis. The *totals* for 1949 onward would, therefore, not be strictly comparable with earlier data.

Figures relate to the calendar year period except in the case of three part 'B' States, *viz.*, Hyderabad, Mysore and PEPSU which could only give figures for the financial year.

NATIONAL FINANCE

The tables contained in this Section cover, in general, the transaction on revenue account not only of the Central Government but also of the State Governments which have separate resources and separate balances. The figures represent the actual cash receipts and disbursements during the financial year April to March, as distinguished from amounts due to or by Government during the same period.

The Section begins with a general statement of the revenue and expenditure on revenue account and of the surplus or deficit of the Central and State Governments which is followed by two tables showing, in somewhat greater detail for the year 1955-56, statements of the ordinary revenue and the expenditure on revenue account of the Central and State Governments having separate accounts. Detailed statements of receipt and expenditure of some of the principal heads of revenue is given in the following tables.

The accounts fall under four main heads :—(1) Revenue, (2) Capital (3) Debt and (4) Remittance. The first deals with the proceeds of taxation and other revenue receipts and the expenditure therefrom, the net result of which represents the revenue surplus or deficit for the year. The second deals with expenditure met usually from borrowed funds, incurred with the object either of increasing concrete assets of a material character or of reducing recurring liabilities. The third comprises receipts and payments in respect of which Government becomes liable to repay the money received or has claim to recover the amounts paid, proper adjustments being made for repayments of the former and recoveries of the latter. The fourth and last division includes all adjusting heads.

General Statement of Revenue and Expenditure of former Part 'B' State Governments, and the six Part 'C' States which had separate budget has also been included.

Figures in this section have been collected from the office of the Comptroller and Auditor General of India.

INCOME-TAX : CLASSIFICATION OF TAX

Tables 83-84 relate to the old series wherein all India totals for Income-tax and Super-tax demand for the years 1948-49 to 1952-53 have been separately presented. The Tables 85-88 give the All India figures by grades of income and total State figures for the year 1956-57 and are designed to show the total tax demand (including surcharge), under the Indian Income-Tax Act, 1922, as well as the net income left in the hands of the assessee after payment of the taxes. All India totals for the years 1953-54 to 1955-56 are also given in table 85. The classification according to grades is based on total income before deduction of tax. The assessee in the grade below Rs. 4,200 in respect of classes other than Companies are generally non-residents liable to tax on the basis of their total world income.

The scope of the Act has been enlarged by section 3 of the Indian Finance Act, 1950 (XXV of 1950), and from 1950-51, it extends to the whole of India, except the State of Jammu and Kashmir. The taxation laws have been extended to the State of Jammu and Kashmir from 1954-55.

All India and State figures comprise the total number of assessee, total income assessed, net income (after deduction of taxes) and the total tax demand under the different classes of assessee, *viz.*, (i) individuals, (a) Purely Salary earners, (b) Salaries with other Sources and (c) non-Salary earners, (ii) hindu undivided families, (iii) unregistered firms and other associations of persons, (iv) registered firms and (v) companies and other concerns assessable at company rates.

LOCAL BODIES

This section deals with statistics relating to the constitution and administration of local bodies, *viz.*, Municipalities and District and Local Boards as constituted in the different States of India and also the three Port Trusts in Bombay, Calcutta and Madras. Figures include available information for all former Part A, B & C States.

Table 89 relates to the number of municipalities, total population within municipal limits, number of members, both official and non-official, total income, taxation per head of population and total expenditure. Income and expenditure for the latest year of municipalities from which returns have been received, are shown in greater detail in Tables 90 to 93. Table 94 contains names of municipalities with population of 50,000 and above together with figures of their income and expenditure.

Information regarding the number of district and local boards in each State together with the number of members, official and non-official, income and expenditure of these boards, is contained in Table 95.

Statistics of Port Trusts under the broad heads namely, number and classification of members, income, expenditure and capital debt, are given in the Table 96.

EXCHANGE, COINAGE AND CURRENCY

This section presents data connected with Exchange, Bullion, Government Securities, Coinage and Currency.

TABLE 97

Money Rates in India.—This table contains the highest and lowest of money rates ruling during the year (April to March) from 1948-49 to 1956-57.

Bank Rate.—The standard rate at which the Reserve Bank of India is prepared to buy or rediscount bills of exchange or other commercial paper eligible for purchase under the Reserve Bank of India Act.

State Bank of India Hundi Rate.—The rate at which The State Bank discounts first class three months commercial bills.

Call Money Rate.—Relates to inter-bank advances repayable on call at the option of the lender.

Bazar Bill Rate.—Rates at which bills of small traders are reported to have been discounted by shroffs. These are unofficial quotations.

Treasury Bill Rate.—Represents the average rate of discount on Central Government Treasury bills sold to public during the period.

Deposit Rates.—As quoted by larger banks in Bombay.

TABLE 98

Foreign Exchange Rates.—Figures represent the official selling rates of Telegraphic Transfers in Bombay and are the averages of working days during the period. From June 15, 1955 they relate to free market rate except for Canada, Pakistan, U.K. and U.S.A.; free market rates for U.S.A. and Canada from Sept. 3, 1956.

TABLE 99

Prices of India Government Stock.—Quotations represent the actual prices of the principal Government of India securities. They are furnished by the brokers and are the average of daily selling prices during December each year at Bombay and Calcutta Stock Exchanges.

TABLES 100 AND 101

Prices of Gold and Silver.—Spot quotations showing the highest, lowest and average prices of Silver in London, New York and Bombay and of Gold and Sovereigns in Bombay. Average prices are the averages of closing quotations for working days.

Stock figures are the averages of week-end stocks.

TABLE 102

Sterling Transactions.—Figures represent purchase and sale of Sterling by the Reserve Bank of India and exclude Government transactions. *Purchases* include ready and forward purchases and cancellations of forward sale contracts while *Sales* include ready and forward sales and cancellations of forward purchase contracts.

Data for 1947-48 relate to undivided India while those for 1948-49 and onwards are for the Indian Union only.

TABLE 103

Government Promissory Notes enfaced for payment of Interest in London.—Enfacement is an endorsement made length-wise across the face of a promissory note to the effect that the interest is payable at the place named in the endorsement. Holders of Government securities desirous of transferring them from India to London for payment of interest have to apply to any of the Public Debt Offices in India, tendering at the same time their Government Promissory Notes duly receipted for the purpose. The Public Debt Office then issues to the holders non-transferable London certificates under advice to London Office. The holders have to present these certificates to the Reserve Bank of India, London, in exchange for Government Promissory Notes, interest on which will be payable in London. The same procedure is followed when holders of Government Promissory Notes in London desire to draw interest in India.

TABLE 104

Number and Value of Coins minted.—Figures are shown separately for Bombay and Calcutta mints.

Indian mints have also minted coins for foreign countries like East Africa, Ceylon, Malaya, Straits Settlements, Iraq and Egypt. The number and value of such coins, together with those minted for Indian States have been shown separately within brackets below the figures of Indian money.

Classification has been made according to the metal of coins. The denominations of Indian coins included under each metal are explained below:—

Silver.—Includes quaternary rupees, half rupees and quarter rupees. The issue of quaternary (silver) rupee coins was discontinued from end of May 1946.

Nickel.—Only one-eighth rupees and one anna pieces were struck in nickel till 1946-47, when nickel half rupees and quarter rupees were also introduced. Nickel rupees were first struck during 1947-48. Nickel half anna was also introduced simultaneously

Nickel Brass and Cupro Nickel.—Include one-eighth rupees, one anna and half anna pieces

Bronze.—Includes single pice, half pice and pies. "Hali Pice" and "Pie" Pieces were not struck from 1942-43 onwards

TABLE 105

Value of Old Silver Coins received for recoinage.—Figures include Govt. of India rupee and small silver coins.

TABLES 106 and 107

Import and Export of Gold and Silver.—Figures represent the exports and imports of bullion and coins on private and Government accounts. Figures up to the end of February, 1948 are for undivided India, but those relating to the port of Karachi and Chittagong have been excluded from 1st and 15th August 1947 respectively. Since March, 1948 the data are on a post-partition basis, i.e., include the sea-borne trade of the Indian Union with Pakistan, foreign sea-borne trade of Kutch has been included from 1st June, 1948 and of Travancore, Saurashtra and Baroda from 1st April, 1949.

Government of India rupee and half rupee coins are shown at face value.

TABLE 108

Value of Gold and Silver received and coined in Mints.—Data relate to Bombay and Calcutta mints only. Old rupees received for recoinage are taken at their nominal value. Silver received into mints for foreign and Indian States coins is not included.

TABLE 109

Circulation of India Notes by Denominations.—Data exclude the Government of India one rupee notes (introduced in July, 1940), which are treated for the purposes of the Reserve Bank of India Act as rupee coins.

Notes of the denominations of Rs. 500, Rs. 1,000 and Rs. 10,000 were demonetised in January, 1946. New high denomination Notes for Rs. One, Five and Ten thousands were again issued from April 1954.

Figures for 1947 relate to undivided India, while those for later years are net of India Notes returned from circulation in Aden, but are inclusive of Rs. 43 crores of India Notes returned from circulation in Pakistan and awaiting adjustment.

TABLE 110

Statistics of Note Circulation.—Figures are for the last Fridays of the year ending March. Figures for 1947-48 relate to undivided India, those from 1948-49 are net of adjustments made on account of (i) transfer of liabilities to the State Bank of Pakistan in respect of inscribed Pakistan Notes issued between April and June 1948, (ii) cancellation of India Notes returned from circulation in Pakistan under Section 4(2) of Part IV of the Pakistan (Monetary and Reserve Bank) Order, 1947, as amended, and (iii) India Notes returned from circulation in Aden during the period October 1951 to 1952.

Rupee Coin.—Includes Government of India one rupee notes.

TABLE 111

Absorption of Currency.—Figures relate to the Indian Union. Figures are inclusive of notes and coins held by banks and at treasuries and also India currency in circulation outside India but exclude *Hali Sicca* currency. Adjustment have not been made in regard to the issue from January 26, 1950 of Indian currency in Hyderabad. Figures are, however, net of return of about Rs. 43 crores from Pakistan awaiting adjustments and net of adjustments made in respect of India Notes retired from circulation in Aden.

Rupee coins.—Include quaternary and nickel rupees. Government of India one rupee notes are also included.

TABLE 112

Absorption of Small Coin.—Figures from 1948-49 relate to the Indian Union ; earlier figures relate to undivided India.

TABLE 113

Receipts, Charges and Net Profits of the Currency Department.—The table presents an annual Balance Sheet of the Currency Department.

The item "Share of the Surplus profits of the Reserve Bank" is intended for an adjustment of surplus profits payable by the Reserve Bank under Section 47 of the Reserve Bank of India Act. Share of the Bank's profits payable to the Government of Burma under the India and Burma (Monetary Arrangement) Order, 1937 is taken in reduction of profits under this head. No adjustment on the account has, however, been made with the Government of Burma since 1942-43.

Other Receipts.—Include (i) receipt from currency notes press, (ii) value of old currency notes assumed to be no longer in circulation, (iii) value of unclaimed currency notes, (iv) receipts in England, (v) loss or gain by exchange and (vi) miscellaneous receipts.

PRICES OF GOLD AND SILVER

* SILVER OF 835 FINENESS UP TO 1953-54 AND
OF 900 TO 999 FINENESS THEREAFTER.

and Auditor General, India

PRICES CURRENT

Statistics of *wholesale prices* are based mainly on reports received from Government agencies and commercial bodies in important market centres. Information is available concerning almost all the principal commodities that enter into the trade of the country.

Index Number of Wholesale Prices in India (Table 114)—This index is compiled by the Economic Adviser to the Govt. of India. It is a general purpose index with year ended Aug. 1939 as base. It covers 78 commodities divided into 5 major groups and 18 sub-groups. The major groups comprise food articles 11, industrial raw materials 19, semi-manufactured articles 23, manufactured articles 19, and miscellaneous 6. The index is the geometric mean of price relatives with weights proportionate to the value of quantities marketed during 1938-39. Quantities retained by producers have been left out of account in the case of agricultural commodities and other industrial raw materials. With regard to manufactured and semi-manufactured products it is assumed that the entire production was put on the market. Percentage weights are as follows :—food articles 31, industrial raw materials 18, semi-manufactured articles 17, manufactures 30, and miscellaneous 4. The index is calculated weekly from once a week prices on or about Friday for 230 varieties of the 78 items. Monthly indices are the geometric averages of weekly figures.

A revised index of wholesale prices with base 1952-53=100 is now compiled by the Economic Adviser to the Govt. of India. The index includes 112 commodities and 555 individual quotations divided into six main groups. It is a weighted arithmetic mean of price relatives. The weights assigned to various commodities are based on marketed values of domestic produce and value of imports inclusive of duty. In regard to Manufactures (Intermediate and Finished Products) weights have been fixed according to gross value of products as obtained from Census of Manufactures 1948 also taking into account the imports. Weight for electricity is based on energy sold by electricity undertakings valued at average All India rates. Petroleum weights are based on consumption figures. The weights generally refer to the period 1948-49. The weight base is thus different from the comparison base. Data for General Index (Revised Series) have also been specially converted to old base and shown side by side for comparison. Figures have been obtained on the basis: 100 of the Revised Series—380.6 (being the average for 1952-53 of the old Series.)

Wholesale Prices of Certain Staple Articles of Trade at Selected Stations in India. (Table 115)—Figures are given for several varieties in the case of most of the commodities but they generally relate to the chief market only in each case. The figures represent the wholesale prices prevailing in the markets during the last week of each month. Annual figures are averages of months.

Working Class Consumer Price Index. (Table 116)—The figures for the various centres relate only to working class families, the heads of which are in full time regular employment. They represent changes in the cost of a given schedule of goods and services consumed by an average working class household in each centre as determined by periodical field enquiries. The items in the list of articles are grouped under five heads *viz.*, food, fuel and lighting, clothing, house-rent and miscellaneous and separate indices are worked out for the individual groups. The index for any group

is the weighted arithmetic average of the price relatives of the several items in the group, the weights being proportionate to the expenditure of an average working class family on the item. To arrive at the general index, the group indices are averaged together after being weighted by the percentages of the total expenditure devoted to each of these groups by an average working class family. Rent figures in all cases are obtained from enquiries held at long intervals. No account is taken of the seasonality in prices of commodities and services included. Annual indices are the arithmetic means of the monthly indices.

All India average consumer price index and its constituents have been shown with base shifted to 1949=100. This index (original base, 1944=100) is a weighted average of indices for certain selected centres, the weights being the figures of 'blown-up factory employment' (corrected for the effects of partition wherever necessary) over the centres selected within the State in proportion to factory employment at each centre during 1944. In all, consumer price indices for twenty seven centres have been included in the All India Series, 15 of which are compiled by the Labour Bureau on base 1944=100 and the rest by respective State Governments on varying base periods. The centres cover all the former 9 Part A States, 3 Part B States *viz.*, Hyderabad, Mysore and Travancore-Cochin, and 2 Part C States *viz.*, Ajmer and Delhi.

Index Number of Security Prices. (Table 117).--The index number of security prices is a general purpose index compiled by the Reserve Bank of India. These series have been revised with effect from the first week of April, 1953. The average for 1953 thus relates to 39 weeks, ending December. The base period has been changed from the calendar year 1938 to the financial year 1949-50 and the method of compilation has been slightly modified in as much as that in the revised series the chained index numbers of the sub-groups are weighted instead of weighting the link-relatives.

In the compilation of the index, 468 scrips are included. These scrips were selected from among those quoted on the Bombay, Calcutta, Madras and Delhi (for variable dividend industrials) stock exchanges on the basis of the importance of the concerns to which they related and their activity in the market. The scrips were classified into four groups and thirty-eight sub-groups. The weights allocated to each of them were proportionate to the total amount of loans outstanding, in the case of *government and semi-government securities* and to the market value of shares during the base period in the case of *fixed-dividend and variable-dividend industrials*. The indices are calculated from weekly average prices for the selected scrips. The average quotations of the scrips during the base year represent the arithmetic means of the daily quotations for the whole year. Monthly and annual indices are similar averages of weekly figures.

- (1) Annual averages are simple arithmetic average of weeks.
(a) Average of 35 weeks ending August 1953.
(b) Average of 39 weeks ending December 1953

BANKS

The tables in this section present a consolidated picture of liabilities and assets of several important classes of Banks under the following heads:—

(1) Reserve Bank of India.

(2) Indian Banks comprising:—

(a) the State Bank of India and other Indian scheduled banks known as Class A1 Banks.

(b) Indian non-scheduled banks, i.e., banks not included in the second schedule to the Reserve Bank of India Act. These are subdivided into categories A2, B, C and D according to the amount of paid-up capital and reserves.

(c) Indian co-operative banks registered under the respective laws of the State where they are situated. These are also subdivided into Class A and Class B according to capital and reserve.

(3) Foreign Scheduled Banks, whose registered offices are located outside the Indian Union.

Besides the above, two tables showing (i) Percentage of cash balances to liabilities on deposits of several classes of banks and (ii) Total number and amount of cheques cleared are also given.

Some further notes are given below:—

TABLE 118 : *Progress of Banking in India* :

A : Liabilities and Assets of Reserve Bank of India (Banking Department), From 15th August 1947 to 30th June 1948 the Reserve Bank of India functioned as the Central Bank for Pakistan also. The liabilities and assets relating to Pakistan for the period are given in brackets below the consolidated figure for the Indian Union and Pakistan for 1948. Subsequent figures relate to the Indian Union.

B : Liabilities and Assets of State Bank of India.—Figures in this table relate to the business of the Bank both in the Indian Union and abroad.

C : Liabilities and Assets of Foreign Scheduled Banks.—Data are as on the date of the balance sheets and relate to their business in the Indian Union only.

D : Liabilities and Assets of Indian Joint Stock Banks.—This table includes Joint-Stock Banks having their registered offices in the Indian Union. Figures relate to the business of the banks both in Indian Union and abroad.

E : *Liabilities and Assets of Indian Co-operative Banks*.—Co-operative Banks included in this table comprise State and Central Co-operative Banks, and registered non-agricultural (urban) Co-operative Credit Societies, with limited liability, each having a minimum paid-up capital and reserve of Rs. 1 lakh. Figures relate to Co-operative Banks in the Indian Union.

TABLE 119 : Relates to percentage of cash balances to total deposits of different classes of Banks as defined above.

TABLE 120 : *Cheque Clearance*.— The table shows the number and amount of cheques cleared at each principal clearing centre. The total for all other centres is shown separately. The management of the clearing house at New Delhi and Nagpur was taken over by the Reserve Bank of India in August 1956 and March 1957 respectively.

Figures for other centres include the clearing houses at Agra Ahmedabad, Allahabad, Alleppey, Amritsar, Bareilly (from April 1951), Bangalore City (upto December 1949), Cochin (from March 1954), Coimbatore, Dehra Dun, Gaya (from March 1947), Gorakhpur, Hyderabad Dn. (from November 1949), Jaipur (from April 1952), Jullundur City, Kozhikode (Calicut), Lucknow, Mangalore Mathurai (Madura), Muzaffarpur (from November 1950), Delhi (from January 1954), Patna, Poona (from August 1947), Rajkot and Sangli (from February 1957) Simla and Vijaywada (from May 12, 1955).

JOINT STOCK COMPANIES

Statistics relating to Joint Stock Companies are based on returns from Registrars of Joint Stock Companies in regard to companies governed, in the case of former Part A and Part C States, by the Indian Companies Act VII of 1913 as amended by Act XXII of 1936 and in the case of former Part B States by similar laws in force relating to registration of companies.

TABLES 121 TO 124

Statistics are given for number and paid up capital of companies limited by shares only. All figures shown relate to undivided India up to 1946-47 and thereafter to the Indian Union. International Standard Classification was adopted in 1954-55.

Number of foreign companies which carry on business in India is shown separately. The figures relate to companies incorporated elsewhere than in India, chiefly with sterling capital.

Index of Industrial Profits (Table 125)

The index gives only a rough estimate of fluctuations in company profits under the industries included and should not be treated as a general index of business profits. Figures are based on *Net profits* before deduction for depreciation.

Base—1939=100.

Coverage.—Comprises eight principal industries having an overall coverage of more than 60 *per cent.* in terms of paid-up capital of all the companies in these industries. Judged by the total paid-up capital of all the companies in the entire field of trade and industry, the share of the companies included would, however, not exceed 25 *per cent.*

Computation.—Chain system has been adopted both for individual industries and for all industries. Only net profits are included. The data are collected exclusively from Investors' Year Book published by M/s Place, Siddons and Gough, Calcutta. The profits declared by a company in any year indicate the prosperity or otherwise of the company in the previous year. Besides the industry-wise indices, the actual figures of the number of companies accounted for and their total net profits (before deductions for depreciation) each year and profits of the same companies in the previous year are also given.

INSURANCE

The figures refer to the insurance business of insurers registered under the Insurance Act, 1938. The Postal Life Insurance Fund (Tables 131 and 132) is, however, exempt from the operation of the Act. From the 1st September 1956, life insurance was nationalised and the existing business of Indian Insurers and Provident Societies and Indian business of foreign Insurers vested in the Life Insurance Corporation of India.

LIFE INSURANCES. (*Tables 126 to 130*)

Figures are for the calendar year ending 31st December.

Table 127.—Only important items of liabilities have been shown. They exclude liabilities on account of profit and loss, reserve funds, investment & fluctuation account and other outstanding liabilities. Assets shown are total assets including capital expenditure.

Tables 128 to 130 :—Owing to nationalization, figures for 1959 relevant to tables 129 and 130 are included in table 128.

POSTAL INSURANCE (*Tables 131 and 132*)

Figures are for the financial year April to March. Opening and closing balances include share of Pakistan, as the separation of policies for which Pakistan is liable, has not been completed as yet.

FIRE, MARINE AND MISCELLANEOUS INSURANCE (*Tables 133 and 134*)

Figures are for calendar year ending December 31st.

Department of Insurance.

*Includes the assets relating to the General Department of insurers who were doing both life and general insurance business. This was not included in the figures for previous year.

CO-OPERATIVE SOCIETIES

The table under this section shows in an abstract form the working of the Co-operative Movement in India. The figures relate to the whole of the present territory of the Indian Union and for the latest year *i.e.* 1956-57, they are shown according to the re-organised states. Prior to 1950-51, the statistics from different states did not relate to a uniform period. However, the data from 1950-51 onwards in respect of all states, except Jammu and Kashmir, pertain to one uniform period, *i.e.*, the year ended 30th June.

Statistics for the year 1956-57 are shown separately for Central, Agricultural and Non-agricultural societies. The Central societies include state (provincial) and central banks and banking unions, non-credit societies, central land-mortgage banks, supervising unions and state (provincial) unions or institutes. Agricultural societies include agricultural credit societies, agricultural non-credit societies, grain banks and primary land-mortgage banks. Non-agricultural societies include non-agricultural credit, non-credit and insurance societies.

'*Share Capital*' denotes the paid up amount. '*Deposits by members*' include deposits from Cooperative Institutions, Primary Societies, Individuals and other sources. Figures for '*Loans*' (col. 6) include loans from Reserve Bank of India. Loans from Government are shown under '*State Aid*', and Reserve and other funds under '*Reserves*'. Figures of '*Working Capital*' in col. 10 of the table are totals of columns 4—9. *Loans issued to member* include loans to Banks and Societies also.

AGRICULTURE

Available statistics regarding Agriculture shown in the following tables cover a period of ten years, the latest in most cases being the year 1956-57. While total figures for the whole of India are shown for the earlier years, their Statewise distribution (according to the reorganised states) is shown only for the latest year. Figures relate to the Indian Union and include all States and Union territories. The source for the data is the Ministry of Food and Agriculture, who in turn depend on the individual state authorities for primary returns.

Table 136—*Area according to village papers* is worked out from the returns of area prepared by the village staff for revenue purposes, whereas area by professional survey is calculated by the Survey of India. There is a slight difference between the above two sets of figures because of the different methods by which they are calculated and also because some areas are unsurveyed or no reporting agency exists there.

Area under forests shown in the Agricultural Statistics does not agree in most cases with that given in the Report on the administration of Forest Departments, because (1) the administration reports relate exclusively to forests worked by Forest Departments while the tables of agricultural statistics include in addition, forest areas administered by District Officers and (2) certain village and other lands not covered by forests but worked by Forest Departments are not treated as forests in the returns of Agricultural Statistics.

Area not available for cultivation is land which is absolutely barren or uncultivable or covered by buildings, water or roads or otherwise appropriated for non-agricultural purposes.

Other uncultivated land excluding fallows denotes land for cultivation but not taken up and includes culturable waste, permanent pastures and other grazing lands and land under miscellaneous tree crops.

Fallow lands denote culturable areas which after abandonment remain uncultivated over a defined period of varying length in different States.

Net area sown, area sown more than once and total cropped area—In computing the aggregate *net* area sown, the areas sown more than once have been counted only once. However, while calculating the total cropped area, if different crops are raised on a given land, the same area is counted more than once.

Tables 137 and 138: Figures are given for area and yield of 29 principal crops. Regular all-India forecasts are issued in regard to most of these crops *viz.*, all foodgrains, oilseeds, fibres, potatoes, sugarcane, ginger, black pepper, chillies and tobacco. The estimates for coconut are *ad hoc* while the figures for tea, coffee and rubber are based on regular returns received from State Governments.

The figures in respect of cereals and gram relate to both reporting and non-reporting areas while those for other crops refer to reporting areas only. The estimates relating to non-reporting areas are based on special returns from State Governments.

The data relate to crop year ending June unless otherwise stated. Figures for the latest year are the final forecasts while those for the previous year are partially revised estimates as issued from time to time along with the final forecasts. Figures for earlier years are revised estimates.

The total of area figures shown in table 138 would fall short of the total cropped area by about 10 percent due to the non-inclusion of (i) certain crops such as condiments and spices, indigo, and other dyes, opium and other drugs and miscellaneous food and non-food crops for which yield figures are not estimated and (ii) non-reporting areas under some of the forecast crops mentioned earlier.

Table 139 shows the index of agricultural production in India on base crop year ending June 1950=100. The index covers 28 crops divided into two main groups and six sub-groups. Weights have been assigned to different commodities in proportion to the total-value of production of each commodity during the base period. The output has been evaluated at annual harvest prices prevailing during the year. In a few cases where reliable harvest prices were not available, average wholesale prices have been used with appropriate adjustment. The crops included and weights allotted to each are mentioned in the table.

The index numbers have been constructed by the chain base method in order to provide for changes in the estimates of production due to extension in the geographical coverage or to variation in the method of estimation over time. The sub-groups, the groups and all commodity index numbers are the weighted arithmetic averages of production indices of crops covered. The concept of production for the series is *gross*, no allowance being made for seed or wastage. Livestock products and certain minor crops are not included in the index.

Table 140 shows average yield per acre in lbs. of 24 principal crops and 3 plantation crops, namely tea, coffee and rubber.

Table 141 gives an account of agricultural implements and machinery in actual use as recorded in 1945, 1951 and 1956 livestock censuses. Statewise details are given for 1956.

Table 142 shows achievements under works and supply schemes of the "Grow More Food Campaign". Works schemes are concerned with minor irrigation works and land improvement measures while the supply schemes are connected with distribution of fertilizers, manures and improved seeds.

Table 143 shows data concerning estimates of land revenue in different States, classified according to different systems of land tenure prevailing in the States, along with other particulars.

Table 144 gives data in regard to size of holdings of cultivated land and is based on the census of land holdings and cultivation carried out in 22 States before reorganization. The data generally relates to the year 1953-54. In 10 States namely, Andhra, Bombay, Madhya Pradesh, Madras, Hyderabad, Madhya Bharat, Saurashtra, Ajmer, Bhopal and Cutch the information is based on complete enumeration. In 7 other States namely Punjab, PEPSU, Mysore, Coorg, Delhi, Himachal Pradesh and Vindhya Pradesh also there was a complete enumeration but was restricted to holdings of 10 acres or above. In other States either no census was taken or the details are not available.

(a) Provisional

(b) Includes 17.7 thousand tons for which details are not available.

(c) Includes 0.1 thousand tons for which details are not available.

(d) Includes 47.5 thousand tons for which details are not available.

(e) Included under other improvement works.

(f) Includes 6.2 thousand tons for which details are not available.

(g) 0.3

(h) 0.5

(i) Incomplete.

*Relates to the period from July '56
to March '57

† Included under compost.

IRRIGATION

The tables show in an abstract form the available statistics concerning irrigation. Whereas All-India totals are shown from 1945-46, the statewide distribution is given for the latest year.

Table 145 shows data concerning area under irrigation, according to modes of irrigation. Table 146 shows area under irrigation according to crop-wise distribution. The source for the data is the revenue records, and figs. are shown according to re-organised States.

Table 147 shows data concerning principal irrigation works and results of their operations. These irrigation works include canals and their distributaries, and the results of their operations include total capital outlay, gross receipts, working expenses, net revenue, and interest on capital outlay etc. Works are also classified into (1) productive, (2) unproductive, and (3) navigation, embankment and drainage works.

Productive works are those which produce sufficient revenue to cover the working expenses and interest on capital-at-charge. Most of the largest irrigation works in India belong to this class.

Unproductive Works are those which consist mostly of works not considered sufficiently remunerative but sanctioned with a view to protecting precarious tracts against famine.

There are no separate irrigation works in Delhi, as it is included in the Delhi Division of the irrigation system of Punjab. Canal irrigation is not in operation in Ajmer and Himachal Pradesh, Manipur, Tripura, and Andaman and Nicobar islands. Revenue accounts regarding irrigation works in the erstwhile princely states, forming former Part B and C states were either not kept or could not be suitably utilized.

Information regarding navigation embankment, ent, and drainage works is restricted to Madras and West Bengal only. These works are mainly concerned with flood-control measures. The data are furnished by the respective authorities of the State Governments.

Table 148 shows data concerning inland navigation going on irrigation works.

FORESTS

Statistics concerning forests are shown in five tables. The first two tables deal with the area of forest lands and outturn of forest produce in the different States of the Indian Union. Areas under forest are classified according to types of ownership, namely, state and private. Forests owned by corporate bodies have been included under private forests. Areas under forest are also classified according to legal status such as "Reserved", "Protected" and "Unclassed". Reserved forest is one which is permanently dedicated either to the production of timber or other forest produce and in which right of grazing and cultivation is seldom allowed. In protected forests, these rights are allowed subject to a few mild restrictions. Unclassed forests occur mostly in Madhya Pradesh, Assam, Bihar and Bombay and consist largely of inaccessible forests.

Forest produce is classified as major produce and minor produce. The column 'others' under major produce comprises round wood and pulp wood while that under minor produce includes animal products, fibres and flosses, rubber and latex incense and perfume wood, vegetable oils and oilseeds, etc. Figures of quantity along with total value are shown in the case of the former and value only in the case of the latter.

Three other tables give figures regarding :

- (i) Area of forests protected from fire and cattle.
- (ii) Progress of forest regeneration and afforestation.
- (iii) Employment in forestry and forest industry.

Total figures have been shown from the year 1945-46 to 1954-55, whereas statewise distribution is shown for the latest year 1954-55 which covers total Indian Union territory. Yearly totals for the period up to 1946-47 relate to Part 'A' States, and Ajmer, Coorg and Andamans only, which were the only reporting areas up to that period, while those for subsequent years represent almost the whole of the Indian Union.

The coverage of forest statistics has increased since 1947-48 as compared with previous years, chiefly as a result of the inclusion of former princely states.

Further details concerning forest statistics are available in the *Indian Forest Statistics* and other publications of the *Ministry of Food and Agriculture*, namely *Agricultural Statistics of India, Volumes I and II*.

SERICULTURE

Available data relating to sericulture which are restricted to the production of raw silk and silk-yarn, have been collected by the Central Silk Board, with the cooperation of the sericultural departments in the States.

Raw silk is of two kinds, viz. mulberry and non-mulberry. The distinction arises from the rearing of silk-worms upon either mulberry leaves or other plants. Mulberry silk is produced mainly in Mysore, West Bengal, Madras, Jammu and Kashmir, Assam and Punjab, although some other States have made some progress in this direction under their development plans. Non-mulberry silk, comprising *Tassar*, *Eri*, *Muga* is produced in Assam, Bihar Madhya Pradesh, Orissa and West Bengal.

LIVESTOCK STATISTICS

Data regarding the number of livestock and poultry, besides agricultural implements (shown separately under Agriculture) are collected through a census conducted quinquennially. In the rural areas, the primary data are collected through the village revenue agencies where they exist and where they do not, through other local staff. In the urban areas, the staff of the Municipal or Notified Area Committees collect the information. The data are compiled by the Departments of Agriculture, Veterinary or Land Revenue, as the case may be, in the different States and consolidated returns showing district-wise details are furnished to the Directorate of Economics and Statistics in the Ministry of Food and Agriculture.

The data collected during the 1951 Census have a better coverage than before as a result of the political integration of the country after Independence. Orissa and Manipur could not conduct the 1951 Livestock Census and as such data for these States for 1945 have been repeated. Data for earlier Censuses have been shown after adjusting them, as far as possible, to the 1951 administrative set up. But they are not strictly comparable owing to variation in coverage.

Data for 1956 relate to the reorganised states. The livestock census for 1956 was conducted with the reference date as 15th April, 1950 in all states except Orissa and Manipur where the census was conducted only in 1957 due to certain administrative and other difficulties.

Livestock Products.—Figures for production of milk, *ghee*, and butter are estimates based on the Livestock Census. For consumption of milk the source is the Marketing Reports, issued by the Directorate of Marketing and Inspection, Ministry of Food and Agriculture.

Two new tables (nos. 163 and 164) giving the information on fisheries have been included for the first time in this issue of the Abstract.

MINERAL PRODUCTION

The statistics of production of various minerals up to 1955 included in this Section are taken from the Annual Reviews of Mineral Production in India published by the Geological Survey of India. These figures relate to all Act and Non-act mines. Figures for mines covered by the Indian Mines Act (1923) were collected by the Chief Inspector of Mines and supplemented to the extent possible in respect of Non-act mines by the Geological Survey of India. From 1956 the bulk of the statistics included here are based on returns received under the Mineral Conservation and Development Rules, 1955. The data are collected and compiled now by the Indian Bureau of Mines. The Mineral Conservation and Development Rules, however, do not cover Coal, Salt (Sea), Petroleum, Atomic energy minerals and certain other minor minerals. Statistics of coal production continues to be collected by the Chief Inspector of Mines under the Mines Act, while those for Salt are obtained from the office of the Salt Commissioner. Figures relating to Petroleum and Atomic energy minerals are not available for publication. The basis of valuation is the pit's mouth value of production except in the case of Manganese where average value per ton have been used. Statistics of Mica production are considered incomplete and therefore figures of Quantity and Value of Exports are given. State-wise classification for the latest year (1956) has been given according to the re-organised States.

A table on quantity index of mineral production in India compiled by the Indian Bureau of Mines on an annual basis has been added in this issue of the Abstract. The index covers 30 minerals classified into five broad groups according to the U.N. Standard International Industrial Classification, as specified below :—

- (1) Coal mining
- (2) Iron ore mining
- (3) Metal mining except iron ore mining
- (4) Stone quarries, clay and sand pits, and
- (5) Non-metallic mining and quarrying not elsewhere classified.

The statistics of production given in table 165 provide the framework for the index. Weights have been allotted to the different items in proportion to the pit's mouth value of production in the base year 1951. As the statistics of Mica production for 1951 are incomplete the corrected production figure for 1951 was taken as base and pit head value thereof was used for assigning weights. The index is compiled on the basis of chain base method. The indices for sub-groups, groups and all minerals are weighted arithmetic average of the relevant items.

Table 167 on the working of mines in India relates to mines under Indian Mines Act (1923). It may be added that Petroleum and Salt are the only important minerals not covered by the Act.

LABOUR

This Section of the Abstract presents data in respect of employment, wages and earnings, industrial disputes, accidents and agricultural labour. Details are given below:—

Employment—

Attempts have been made to cover statistics regarding employment both under the public and private sectors as far as figures are available. The following tables have been included :—

Central Government excluding Railways and Indian Missions and Embassies abroad (Table 168).

Public works including Central P.W.D., State P.W.D. and River Projects (Table 169).

State Transport Services (Table 170).

Municipalities (Table 171).

Factories (Tables 172 to 173).

Employment in Factories according to age and sex (Table 174).

Mines (Table 175).

Plantations (Table 176).

Shops and commercial establishments (Table 177).

Statistics relating to employment in factories have been collected under the provisions of the Indian Factories Act, 1934, up to 1948 and under the Indian Factories Act, 1948, thereafter. The old Act which was in force till 1948 covered factories employing 20 workers or more and using power, besides which certain factories, employing 10 workers or more whether using power or not were covered by notification in some of the States. The coverage has since been extended under the new Act to all factories employing 10 workers or more with the aid of power and 20 workers or more without the aid of power. Smaller factories have also been notified in some of the States under special powers given in the Act, but it has not been possible to include information relating to such factories.

TABLE 172 A.—gives figures collected under the two factories Acts mentioned above. Figures for the years 1947 to 1955 relate to all part 'A' States and part 'C' States of Delhi, Ajmer and Coorg. Territories merged with Part 'A' States during this period have been gradually covered. Figures for the year 1956 relate to the reorganised states excluding Kerala, Mysore, J. & K. and Rajsthan and including only Delhi among the centrally Administered territories. From 1950 onwards figures are compiled in conformity with the International Standard Industrial Classification. Detailed figures regarding number of factories and average daily number of workers employed in each industry during the year 1956 in various reorganised States are given in Table 172-B. Annual totals for each State from 1948 are also shown. Coverage of figures is the same as explained above under table 172-A.

TABLE 173 shows statistics of employment in factories in the former part 'B' States and part 'C' States (excluding Ajmer, Coorg and Delhi).

The data are compiled on the basis of voluntary returns and cannot be regarded as complete. Statewise and industry-wise figures are given for the year 1955 and State totals from 1949.

TALBE 174.—Average daily employment in factories according to age and sex groups is shown in this table. It has the same coverage as table 172-A. In the Indian Factories Act 1948, the following changes were made in the definition of adult, adolescent and child, as compared to the Factories Act, 1934 :—

	<i>Under the old Act</i>	<i>Under the new Act</i>
Adult	One who has completed 17 years.	One who has completed 18 years.
Adolescent	One who has completed 15 years but not 17 years.	One who has completed 15 years but not 18 years.
Child	One who has not completed 15 years (children below 12 years not permitted to work).	One who has not completed 15 years (children below 14 years not permitted to work).

TABLE 175.—The dozen minerals covered are the principal ones for which regular employment statistics are available for the entire period covered. The figures presented in this table represent the daily labour employed both above ground and underground in the Act as well as non-Act mines. Up to 1953 the figures relating to Act mines were collected by the Geological Survey of India from the Department of Mines and supplemented, to the extent possible, with data in respect of non-Act mines collected from other sources.

Figures from 1954 in respect of minerals other than Petroleum and Sal are based on returns under the Indian Mines Act, 1952, the coverage of which is nearly cent per cent. Petroleum and Salt (except rock salt) are not covered by the Mines Act and figures are compiled by the concerned agencies on the basis of voluntary returns.

TABLE 176.—shows the average daily number of persons employed in tea, coffee and rubber estates. The Directorate of Economics and Statistics, Ministry of Food and Agriculture, collects figures of employment from tea, coffee and rubber estates every year through State Governments. All workers, gardens and outside, are covered. According to instructions laid down, each estate furnishes figures of 'average daily employment' by dividing the total man-days worked during a year by a standard figure of 300 working days. The figures of 'average daily employment' for individual estates are added up to obtain the 'average daily employment' for industry, each *viz.*, tea, coffee and rubber.

TABLE 177.—Statistics of employment in respect of shops, commercial establishment, and restaurants, registered under the Weekly Holidays Act or Shops and Commercial Establishments Act in the various States. These Acts are in force only in certain urban areas, covering municipal areas, towns and cantonments, and hence the statistics are limited to shops and commercial establishments in such areas. Further, there is no regular arrangement for collecting annual returns on employment from the individual units covered by the Act and the employment data were collected specially by the State Governments at the request of the Labour Bureau. In some cases, the employment data were compiled from the figures furnished by the employers at the time of registration of the unit under the Act and in other cases they

were collected specially by the inspectors appointed under the Act directly from the individual establishments. The Inspectors generally estimated the number of persons employed and it does not appear that any uniform measure of employment, *e.g.*, "average daily employment" for a period or "number on rolls" on a particular day was adopted.

Employment Service—

Statistics in this sub-section show the working of the Employment Exchange under the control of the Directorate General of Resettlement and Employment, Ministry of Labour and Employment. The nature of work undertaken by the Employment Exchanges consists of registering people who are seeking employment and securing employment for them.

TABLE 178—shows the number of applicants on the live-register of Employment Exchanges, according to the nature of jobs sought.

TABLE 179—shows the number placed in employment through the employment exchanges according to the nature of service and placements of certain special categories of applicants.

Wages and Earnings—

The statistics in respect of wages and earnings of factory workers are collected under the Payment of Wages Act. Figures upto 1955 relate to Part 'A' States and Part 'C' States of Delhi, Ajmer and Coorg. Figures for 1956 relate to reorganised States excluding Kerala, Mysore J.&K. and Rajasthan and include only Delhi among the centrally Administered territories. 'Wages' as defined in the Act, cover all remunerations capable of being expressed in terms of money and payable under the terms of the contract. The provisions of the Payment of Wages Act apply to all factory employees, including clerical and supervisory staff whose monthly earnings do not exceed Rs. 200 per month.

These figures have certain broad limitations, *viz.*, (1) the number of establishments furnishing returns may not be the same from year to year, (2) the coverage of the statistics has been enlarged with the coming into force of the Factories Act, 1948 because the definition of the factory has been extended to all factories working with the aid of power and employing 10 or more workers as also those working without the aid of power and employing 20 or more workers.

TABLE 180—shows the total annual earnings of factory workers in each State.

TABLE 181—shows the average annual earnings of a factory worker, according to States.

TABLE 182—shows the average annual earnings of factory employees by industries.

While computing the figures of average annual earnings, the Food group Beverages, Tobacco industries and Gins and Presses have been excluded, as these groups contain mainly seasonal factories where the annual earnings of workers rarely relate to a whole year and therefore would not be comparable with the data on earnings, in the case of perennial factories. Railway workshops are also not covered in these statistics, they are covered separately under Railways.

TABLE 183—shows Wages in Tea Plantations (cash earnings only) and Mining Industry. The figures relating to Tea Plantations are worked out on the basis of information available for 2 months in the year, viz., March and September, while those relating to Mines refer to the month of December each year.

Industrial Accidents—

Industrial accidents cover all accidents, occurring in factories or mines which result in either death or injury to a worker, necessitating his absence from work for 48 hours or more.

TABLE 184 A—shows statistics of injuries resulting from accidents in factories, collected under the Factories Act, 1948, from all factories registered under the Act in all Part 'A' States and Delhi, Ajmer and Andaman and Nicobar Islands upto 1955 and thereafter in the reorganised States (excluding Kerala Mysore, Rajasthan and Jammu and Kashmir) as also Delhi among centrally administered territories. Figures are given for number and frequency rate of fatal and non-fatal injuries in the above states for the year 1956 together with totals for earlier years.

TABLE 184 B—shows number of accidents and number of injuries (i.e., number of persons receiving injuries) in Mines. The data are collected under the Mines Act. Accidents have been classified into fatal and serious. 'A serious injury' is one which involves, or in all probability will involve, permanent loss or injury to sight or hearing or fracture of limb or enforced absence of the injured person from work for a period exceeding 20 days. Complete statistics of 'minor injuries' are not available.

Data up to 1950 cover all the Part 'A' States and Part 'C' States of Ajmer, Coorg, and Delhi. Figures from 1951 cover whole of Indian Union except Jammu and Kashmir.

Industrial disputes—

Industrial disputes relate to strikes and lock-outs resulting in stoppage of work involving ten or more workers in all sectors of employment including mines, factories, plantations, transport, trade, municipal services, etc. Sympathetic strikes and certain other types of stoppages, which do not strictly come under the definition of industrial disputes as laid down in the Industrial Disputes Act, 1947, are not covered.

TABLE 185—shows the State-wise distribution of the number of disputes, workers involved and the number of man-days lost on account of the disputes and TABLE 186—shows the classification of industrial disputes by causes.

Workmen's Compensation—

TABLE 187—shows compensation paid to workers involved in industrial accidents under the Workmen's Compensation Act and excludes compensation for injuries paid under the Employees' State Insurance Act. For the purposes of compensation, accidents have been divided into death, permanent disability and temporary disability. It may be mentioned here that the number of accidents reported under the Factories Act or Mines Act need not necessarily be identical with the number of accidents actually compensated under the Act. Figures relate to the former part 'A' States, 4 part 'C' States (Ajmer, Bhopal, Coorg and Delhi) and Andaman and Nicobar Islands.

Labour Training—

TABLE 188—shows the progress of the labour training scheme, sponsored by the Ministry of Labour and Employment.

Source: Ministry of Labour and Employment Director General of Resettlement and Employment.

(1) Relates to training in Centres run by the Ministry of Labour (Director General of Resettlement and Employment).

(2) There was no apprentice training scheme in operation at the end of 1950.

(a) Excluding in-structors receiving training at the Central training Institute, Kani-Bilaspur and I.T.I. New Delhi.

TRADE UNIONS

Figures relate to Trade Unions (registered under the Indian Trade Union Act, 1926) that have submitted returns. Data relate to the entire Indian Union except Jammu & Kashmir. Coorg was included in 1948-49. Agricultural trade unions first came into the Register in 1947-48.

Registration of unions under the Trade Union Act is not compulsory. Data regarding unregistered Unions are not available. The figures are based on returns received only from about 50 to 60 per cent of the total number of registered Unions.

(1) Figures for 1947-48 and 1948-49 relate to Workers Unions only.

(a) The difference is on account of the absence of information on opening & closing balance from Rajasthan

(b) The difference is on account of the absence of information on opening and closing balances from Saurashtra

* Relates to 3,545 unions.

INDUSTRIAL PRODUCTION

This Section deals with the following items:—

- (a) Census of Manufacturing Industries.
 - (b) Production of Cotton yarn and piecegoods.
 - (c) Production of certain selected industries.
 - (d) Interim Index of Industrial Production.
- and (e) Revised Index of Industrial Production.

Explanatory notes on the tables under each of the above items are given below:

Census of Manufacturing Industries (Tables 194-195)

This portion presents a summary of statistics of manufacturing industries in India from 1948 onwards as obtained by the Annual Census of Manufactures conducted under the authority of the Industrial Statistics Act, 1942. Detailed figures for 1954 and totals for the years 1948 to 1953, have been given for comparison.

1. *Area and period covered.*—The figures refer to calendar years. Data for the year 1948 covered the following Part 'B' and 'C' States in addition to all the Part 'A' States and Delhi and Ajmer among the Part 'C' States covered in the previous years:—

(a) PEPSU (Patiala only), (b) Rajasthan (Jodhpur only), (c) Saurashtra (Porbandar only), (d) Travancore-Cochin (Cochin only), (e) Vindhya Pradesh and (f) Himachal Pradesh.

The Census for 1949 Covered PEPSU in addition but excluded Rajasthan (Jodhpur) (Rajasthan) and Kutch came to be included in 1950. Saurashtra in 1951 and Mysore and Travancore-Cochin in 1954.

2. *Classification of Industries.*—Only 29 important industries have been included in the census.

3. *Establishments covered.*—The census is confined to manufacturing industries proper and only factories listed under section 2 (j) of the Indian Factories Act, 1934 have been covered. Such factories employed 20 or more workers and the manufacturing process in them carried on with the aid of power.

The Census has so far been Confined to 29 industries of which the Producer Gas Plant industry exists no longer. There has been no factory under this industry since 1952.

4. *Capital Structure.*—All particulars under this head are as on the 31st December each year or the last closing date of accounts, except in the case of sugar. In the case of sugar industry, the particulars are as on 30th June.

Productive Capital employed is the value according to the books of the factory on the date to which the particulars relate.

5. *Persons engaged.*—Include all administrative, clerical and technical staff working within the factory area and all those engaged in effecting delivery of the output. Persons employed in retail sales organization and personnel of the central administrative offices outside the factory area have not been included. The persons employed have been divided into two broad groups :—

- (a) Wage earners and (b) others.

Wage earners are those who perform manual work. They comprise piece-workers and time-workers. Persons solely employed in a clerical capacity in a room or place where no manufacturing process is carried on are not classified as workers.

The average daily employment has been worked out by dividing the aggregate number in attendance on all working days by total number of working days during the year. Daily attendance is the aggregate of attendance in all shifts. Days on which the factory was closed for whatever cause have not been treated as working days.

A comparison of the number of persons employed in the factories covered by the Census with the total number of persons engaged in all factories under the Factories Act, 1948 (*Vide* Section of Labour) indicates that the coverage of the Census (in terms of persons employed) is about 66 per cent.

6. *Wages and salaries*.—Include cost of living or dearness allowances, overtime earnings and other additional payments. Fines, etc., have been deducted.

7. *Cost of Material, etc., fuel consumed*.—Figures refer to the purchase value of raw materials, fuel, electricity, coal, gas, lubricating materials and water consumed in the manufacturing of products and by-products for sale. Only materials *purchased* have been included and those made in the factory have not been accounted for. The purchase value includes transport charges and duties paid.

8. *Value added by manufacture*. This denotes the increase in the total value of commodities as calculated by subtracting the cost of materials, supplies, containers, fuel, purchased electric energy, contract work and depreciation of fixed assets from the total value of products including work done by the industry for customers.

Cotton Mills—Production (Tables 196-200)

Statistics of cotton spinning and weaving in Indian Mills till 1954-55 given in tables 196 and 198 were compiled from the returns furnished by the mills in accordance with the requirements of the Cotton Industry (Statistics) Act XX of 1926. From June 1955 the forms of returns furnished by the mills were revised to amalgamate the returns received under the above Act and the CST forms obtained under the Cotton Textile (Control) Order, 1948. The statistics on the revised basis is shown in tables 197, 199 and 200.

Production of Selected Industries in India (Table 201)

The data contained in this table cover 92 industries. Returns are received from producing units on a voluntary basis except in the case of Coal, Sugar, Vegetable oil (Vanaspati), Cotton textiles and Iron & Steel, where the collecting agencies have powers to call for returns.

Figures for organized industries like steel, salt, coal, sugar, cement, cotton textiles, paper, jute, matches, etc., cover the entire production in the country. Jute production figures from January 1949 relate to mills in the membership of Indian Jute Mills Association which account for nearly 95 per cent. of entire output. Figures for other industries represent all organised factories in those industries but small units have been left out. The data in this table relate to production in all states in the Indian Union other than Jammu and Kashmir except in the case of woollen Manufactures, Matches and Electricity Generated, where production in the latter state is also included. The installed capacity in every case refers to the close of the period.

Interim Index of Industrial Production (Table 202)

Base—1946=100.

Industries covered.—Mining and Manufacturing comprising 20 industries.

Coverage.—Based on statistics of selected industries given in table 201.

Weights.—Value added by manufacture in the base year obtained from the First Census of Manufactures, India, 1946. In the case of coal, the gross *ex-factory* value at pit-head of the coal mined has been taken as an estimate of value added. The industries and their respective weights are as follows:—

	Industries	Weights
1.	Coal	11.95
2.	Sugar	3.54
3.	Paints and Varnishes	0.61
4.	Cement	0.67
5.	Glass	0.55
6.	Refractories (Ceramics)	0.48
7.	Plywood (Commercial and Tea chests)	0.15
8.	Paper and paper board	1.46
9.	Matches	1.21
10.	Cotton Textiles	43.49
11.	Woollen manufactures	1.38
12.	Jute	16.53
13.	Chemicals	3.10
14.	Non-ferrous metals	2.14
15.	Steel	7.16
16.	Bicycles	0.11
17.	Sewing machines	0.02
18.	Electric Lamps	0.04
19.	Electric Fans	0.35
20.	General and Electrical Engineering	5.06
	TOTAL	100.00

Computation is on the basis of the weighted arithmetic average with fixed base.

This index has been discontinued Since April 1956.

Revised Index of Industrial Production (Table 203).

Base : 1951=100

Coverage.—Based on Statistics of production in Table 201, covering 88 items.

Weights.—weights are allotted to various items in proportion to value added by manufacture in the base year. The respective weights for various industries are mentioned in the Table.

Computation.—Index is a simple weighted arithmetic mean.

INDEX OF INDUSTRIAL PRODUCTION (BASE 1951 = 100)

PATENTS AND DESIGNS

The statistics relate to grant of patents and the registration of designs under the Indian Patents and Designs Act, 1911 (II of 1911). They do not include trade marks or copyright in books, pictures, or patent and proprietary medicines which respectively come within the scope of Trade Marks Act, 1940, the Indian Copyright Act, 1914 and the Drugs Act, 1940. The table contains information up to the year 1957.

'Application for a patent' is a request, for a grant from the Government which confers on the grantee, for a limited term, the exclusive privilege of making, selling and using an "*invention*" and also of authorizing others to do so.

'Patents Sealed' means patents granted and sealed with the seal of the Patent Office on payment of the prescribed fee.

'Extension of the term of patent' means extension beyond the normal term of sixteen years. Such extensions are usually granted for further terms not exceeding five years and, in exceptional circumstances, ten years.

'Lapsed patents' means patents which ceased to be in force owing to non-payment of prescribed fees for continuance.

'Registration of design' confers upon the registered proprietor 'copyright' in the design for the period of registration (initially five years and extendable by a further period of ten years).

RAILWAYS

For statistical purposes, Indian Railway systems were broadly classified on the following lines up to 1950-51—

CLASS I.—Railways with gross earnings of not less than Rs. 50 lakhs a year.

CLASS II.—Railways with gross earnings of less than Rs. 50 lakhs a year but exceeding Rs. 10 lakhs.

CLASS III.—Railways with gross annual earnings of not more than Rs. 10 lakhs.

From 1951-52, the Indian Railways have been classified as :—

(i) Government Railways and (ii) Non-Government Railways, instead of Class I, II and III.

The figures relate to Indian Union ; but are exclusive of E.P., Assam and the narrow gauge of E. I. Railways, for the period from 1st April 1947 to 14th August 1947.

Route-Mileage of the Railways.—In calculating route mileage, double or treble lines are counted only once.

Gross Earnings and working Expenses.—Represent total earnings and expenses of railways in an accounting period irrespective of whether the earnings have been realised or expenses paid. Gross earnings include all earnings from passenger traffic, goods traffic, parcels, luggage and other miscellaneous sources of revenue, while working expenses include all expenses incurred for maintenance of structural works, supply of loco power, carriage and wagon stock, ferry steamers and harbours, as well as the expenses of traffic departments, general and electric service departments and other miscellaneous expenses.

Train Mileage.—Includes the mileage of trains conveying passengers or goods or both as well as the mileage of empty trains. No deduction is made for departmental trains.

Number of Passengers and Number of Tons carried.—In Table No. 205 the figures represent the number of passengers and weight in tons of goods originating on all Railways, while in Table No. 206 they represent the total number of passengers and total weight in tons of goods carried on individual railways. In the latter case, passengers travelling over two or more railways or two or more gauges of the same railway are treated as having performed two or more journeys. The figures relating to tonnage of goods carried are also recorded in the same manner.

Passenger Miles and Net Ton Miles.—The figures under these heads are the real indices of the volume of passenger and goods traffic handled. These are arrived at by multiplying the total number of passengers carried and the total tonnage of goods carried by the respective number of miles over which they are moved.

Accidents.—The figures exclude persons killed or injured in railway workshops.

The regrouping of Indian Railways carried out during 1951-52 has necessitated corresponding changes in the statistics contained in this volume. With effect from the 14th April, 1951, the M. & S. M., S. I. and Mysore State Railways were integrated into the Southern Railway. With effect from the 5th November, 1951, the G.I.P., N.S., Scindia and Dholpur State Railways were combined to form the Central Railway and the B.B. & C.I., Saurashtra, Jaipur State, Rajasthan and Kutch State Railways to form the Western Railways.

For purposes of statistics, the regrouping has been assumed to have taken place as from 1st April, 1951 and comparative figures for the Central, the Western and the Southern Railways for 1950-51 have been compiled for the regrouped system as a whole by consolidating the figures of the respective constituent units of the new systems. For purposes of exhibiting comparative figures for 1950-51 the Scindia, Dholpur, Saurashtra, Jaipur, Rajasthan and Kutch State Railways, which, prior to regrouping, were included under Class II and Class III Railways, are now included in group of 'Class I' Railways and omitted from the groups 'Class II' and 'Class III' Railways.

The regrouping of Government Railways was further extended on the 14th April, 1952 with the formation of the Northern, Eastern and North Eastern Railways as follows :—

The Northern Railways by the integration of the former Jodhpur, Bikaner State, and E.P. Railways; Lucknow, Moradabad and Allahabad Divisions of the E.I. Railways; and the Delhi-Rewari-Fazilka Section of the Western Railway.

The Eastern Railway by the integration of the former B. N. Railway with the remaining Divisions of the E.I. Railway.

The North Eastern Railway by the integration of the former O.T. and Assam Railways and the Kanpur Achnera Section of the Western Railway.

With effect from August 1, 1955, the old Eastern Railway was bifurcated into the Eastern and South Eastern Railways.

1 From 1st January 1949 new classes of passenger travel were introduced. From that date 1st class represents Air Conditioned 2nd class represents Class I, Inter Class represents Class II and 3rd Class represents Class III. The original classes of passenger traffic were restored from 1-12-49. Class II special was introduced with effect from 1-12-49 and therefore, the relevant figures shown under 2nd class for 1949-50 are only for 4 months. With effect from 1st April 1955, the pre-existing 1st Class was abolished and the Second and Inter classes were re-named as First and Second Classes respectively.

(2) These figures represent the number of passengers and tons of goods originating on all Railways and are not the total of figures shown in the later table relating to "Number of Passengers and Quantity of goods conveyed and the Earnings derived therefrom by the several Railway systems in India" which represents the total number of passengers and goods carried on individual railways.

(a) Suburban only.

(b) Pre-April 1955.

(c) 1st Class/pre-April 1955 2nd class.

(d) 2nd Class/pre-April 1955 Inter Class.

MOTOR VEHICLES

Table 213

Number of Motor Vehicles taxed during the last quarter of the year.—The figures shown in the table may be taken to represent the bulk of the serviceable vehicles.

Tables 214 and 215

Revenue from State Motor Vehicles Taxes and Fees in India.—Direct taxation of motor vehicles in India is a State subject. Taxes are levied under various State 'Taxation Acts' and the basis and incidence of taxation vary. Fees are levied under the Motor Vehicles Act, 1939; which is a Central Act; and Motor Vehicles Rules framed by the State Govts. thereunder. These include (a) fees for issue and renewal of driving licences issue of duplicate licences tests of competence to drive, and (b) others which include fees for issue of registration certificates and duplicates thereof and issue of permits for operation of transport vehicles. Annual figures are compiled from returns in prescribed forms received from various States in pursuance of a decision taken at a meeting of the Transport Advisory Council held in 1939.

⁽¹⁾ Data upto 1949-50 relate to all Part 'A' States and two part 'C' States viz., Coorg and Delhi; subsequent figures relate to entire Indian Union.⁽²⁾ Includes amounts for which details are not available.⁽³⁾ There is no taxation on Motor Vehicles in the States of J. & K. and Ajmer.⁽⁴⁾ Figures for 1953-54 and 1954-55 exclude Assam, West Bengal and PEPSU. These States accounted for nearly 12 per cent of total revenue from Motor Vehicle taxes in 1952-53.^(b) Excludes figures for Andhra & West Bengal.

(R) Revised.

ROADS

Table 215

Road Mileage and Expenditure on Extra-Municipal Roads maintained by Public Authorities.—The figures are compiled annually from the returns in the prescribed forms received from various States according to recommendations of the Conference of British Commonwealth Statisticians held in Ottawa in 1935. These statistics relate to extra-municipal roads, *i.e.*, roads outside the area or jurisdiction of a Municipality, Town or City Corporation or other urban body. These roads are maintained by the (a) Public Works Department and Military Engineering Services, and (b) Local Bodies. The roads maintained by the M.E.S. are generally in Cantonments where the M.E.S. are the executing agency for P.W.D. These returns do not include Military roads but they include roads, provisionally classed as national highways which have come under the direct control of the Government of India with effect from April 1, 1947.

Table 216

Central Road Fund Statistics.—The Central Road Fund came into being in 1929-30, on the recommendations of the Jayakar Committee. The fund was built up out of an additional tax of two annas (now $2\frac{1}{2}$ annas) a gallon on motor spirit. A part of the fund (now one-fifth) has been reserved for works of special or all-India importance, the balance being allocated to the States for approved works. The basis of allocation has been determined by the ratio of the consumption of motor spirit in each administrative unit. The fund is non-lapsing, but the credits are subject to the annual vote of the Parliament. The Central Reserve was originally fixed by the Legislature in 1930 at 1/10th of the Central Road Fund. It was subsequently raised to 15 per cent in 1937 and 20 per cent. in 1949. Data relate to the Indian Union.

SHIPPING

Indian shipping statistics are confined to foreign and coastal traffic only, data for inland shipping being far too meagre at present. Numbers of ships include their repeated voyages, *i.e.*, if a ship performs more than one voyage, it is treated as more than one vessel. Tonnage recorded except in table 223, is net tonnage, *i.e.*, volume of enclosed spaces of vessels less crew space, engine room and other space not used for cargo; and the unit of measurement is a ton of 100 cu. ft. Tonnage recorded in table 223 is gross registered tonnage.

Figures for sailing vessels include only square rigged type while those which are not square rigged are taken as country craft.

Vessels in foreign trade are recorded as entering on the voyage inwards at the first port and as clearing on the voyage outwards at the last port at which cargo is laden. If on their inward voyage, they enter a port in India in ballast or to discharge a part of their cargo and then proceed to other ports in India, their clearances and entries after the first port are recorded in the coasting trade. Similarly if vessels on the voyage outwards load with part cargo for a foreign port and part for some other port or ports in India, they are recorded at the first port of departure as cleared in the coasting trade and such vessels are again recorded as cleared in foreign trade at the last Indian Port:

CIVIL AVIATION

The statistics relate to all traffic, (both Revenue and Non-Revenue Loads), carried by Indian airlines on their scheduled services. Data for Internal and International Services have been shown separately.

Further details are as below :—

Hours flown } Hours and Mileage flown by individual planes added
Miles flown } together

Capacity ton-miles.—The figures are obtained by multiplying the tonnage offered to the public for air transportation of passengers, freights and mails by the mileage flown.

Passengers, freight, mails and newspaper carried.—The number of passengers carried represents the total number of passengers carried on different air-routes treating passengers travelling by planes for two or more routes as having performed two or more journeys. The figures relating to the weight of freight and mails carried are also derived in the same manner.

Passenger-miles.—The figures are obtained by adding up the mileage travelled by each passenger.

Load-ton-miles.—Represent aggregates based on the product of the tonnage of freight or mails as the case may be, and the distance through which the load was carried. The figures relating to total load ton-miles take into account all kinds of traffic, including passengers.

POSTS AND TELEGRAPHS

This section presents financial and operating data relating to the different branches of the Posts and Telegraphs Department including the post office savings Bank. They comprise statistics of the number of offices and the mileage of telegraph lines as well as the volume of traffic handled by those offices and/or sent over the wires. It is possible with these data to make a study of the growth of traffic against the background of expansion of facilities and *vice versa*. (Tables 226 to 230.)

Receipts under Postage (Table 231) include both sale of stamps and postage paid in cash, *e.g.*,—(i) postage prepaid in cash in Presidency post offices, (ii) credits afforded in the schedule of customs duty on account of postage redirection fees, and insurance fees realised on delivery of inward foreign parcels, (iii) charges for resetting franking machines and (iv) cash realised for unpaid or insufficiently paid postal articles. Statistics relating to Telegraph offices (Table 234) maintained by the department independently or in conjunction with another office or by a licensed administrator have been included. Statistics of registered articles are actuals. In the case of unregistered postal traffic (letters, postcards, parcels, packets and newspapers) it is not possible to maintain day to-day statistics of the *actual* number of articles. Unregistered traffic is, therefore, estimated from a count of the articles in all post offices in India taken during the one week in the busy season and one week in the slack season.

Table 238 on Radio telegraphs includes only messages sent to ship from coastal offices.

(a) From the year 1951-52, the Revenue Receipts of telephone districts Bombay, Madras and Calcutta are merged with Miscellaneous Revenue.

OVERSEAS COMMUNICATIONS SERVICE

This Service, working as a separate Department under the Ministry of Communications, is responsible for Telegraph, Telephone, Radiophoto and Multi-Address Broadcast Services between India and Foreign countries. The service was nationalised with effect from the 1st January, 1947 prior to which date it was being worked by a private company—The Indian Radio and Cable Communications Co. Ltd., following services being taken over from the Company at the time of Nationalisation :—

- (a) Submarine Cable Telegraph Services—connecting (i) Bombay to London *via* Aden, Port Sudan, Alexandria, etc. for the European traffic ; (ii) Madras with Penang, Singapore, Hong Kong, etc. for the East Asian traffic ; (iii) Bombay to Zanzibar *via* Aden for East and South African traffic.
- (b) Wireless Telegraph Services—between (i) Bombay and London, Melbourne, Shanghai, New York (through two direct services operated by Messrs. Mackay Radio Telegraph Co., and Radio Corporation of America at the American end) ; (ii) New Delhi and London.
- (c) Radio Telephone Service—between Bombay and London.

2. Considerable progress has been made in India's foreign communications, as will be seen from the services operated on 31st March 1958, as given below :—

- (a) *Direct Wireless Telegraph Services*.—(i) *Bombay* to Afghanistan, Egypt, France, Hanoi, Indonesia, Iran, Italy, Japan, Saigon, Thailand, United Kingdom and U. S. A. (2 circuits) ; (ii) *Calcutta* to Australia, Burma, United Kingdom; and (iii) *New Delhi* to Moscow, Peking, Poland, Shanghai, United Kingdom and Yugoslavia.
- (b) *Direct Radio Telephone Services*.—(i) *Bombay* to Aden, Bahrain, Burma, East Africa, Egypt, Ethiopia, Hongkong, Indonesia, Iran, Japan, Malaya, Poland, Saudi Arabia, Switzerland and United Kingdom ; (ii) *Calcutta* to Australia, Germany, Saigon, United Kingdom and (iii) *New Delhi* to China (Sanghai), France, Italy, Moscow, United Kingdom.
- (c) *Direct Radio Photo Services*.—(i) *Bombay* to Japan, United Kingdom, U.S.A. ; and (ii) *New Delhi* to China, France, Poland, United Kingdom, and U.S.S.R.
- (d) *Multi-address Press Broadcasts*.—(i) *Delhi* to Ankara, Baghdad, Bangkok, Beirut, Berne, Bonn, Brussels, Cairo, Colombo, Consular Bodies at Rangoon, Djakarta, Kabul, Khatmandu, London, Moscow, Nairobi, Paris, Peking, Prague, Rome, Singapore, Sydney, Teheran, The Hague and Tokyo ; (ii) *Bombay* to Buenos Aires and Rio de Janeiro.
- (e) *News Service for the press*—from *Bombay* to Khatmandu, Tokyo and Kabul.

- (f) *Switched Radio-telephone Services* : (i) *via London* to Algeria, Argentina, Asmara, Austria, Barbados, Belgium, Bermuda, Brazil, Canada, Ceuta, Cuba, Czechoslovakia, Denmark, Doha, Finland, Germany, Gibraltar, Greece, Guatemala, Honduras, Hungary, Iceland, Israel, Italy, Kuwait, Lebanon, Luxembourg, Mexico, Morocco, Muscat, Netherlands, Newfoundland, New Zealand, Nicaragua, Norway, Panama, Rhodesia, Saar, Spain, South Africa, South Ireland, South West Africa, Sudan, Sweden, Tangier, Tunisia, United States of America, Vatican City and Yugoslavia.
- (ii) *Via London to the following Ocean Liners*: America., Athlone Castle, Capetown Castle, Caronia, Corinthia, Constitution, Edinburgh Castle, Empress of England, Empress of Britain, Eastriver, Israel, Ivernia, Independence, Maasdam, Mauretania, Nevasa, Nieuw Amsterdam, Olympia Elir, Orion, Orcades, Oronsay, Orsova Oxfordshire, Oslof-Jord, Pretoria Castle, Queen of Bermuda, Queen Elizabeth, Queen Marry, Reina (Del Mar), Rijndam, Stirling Castle, Sylvania, Saxonia and Zion.
- (iii) *Via Berne* to Yugoslavia.
- (iv) *Via Bahrain* to Muscat, Doha and Quwait.
- (v) *Via Egypt* to Sudan.
- (vi) *Via Australia* to New Zealand.
- (vii) *Via Ethiopia* to Asmara.
- (g) *Switched Radio photo Services via London* to Australia, Belgium, Canada, Denmark, Egypt, Finland German Federal Republic, Greece, Italy, Norway, Portugal, Sweden, Switzerland and Union of South Africa.

3. Through the above services, India's external communications are handled and the statistics of traffic and revenue of different services are as shown separately .

Merchandise Marks

The data refer to the detentions made and penalties imposed under the Indian Merchandise Marks Act, 1889 and relate to the ports of Bombay, Calcutta, Cochin, Delhi (Airport) and Madras. Pondicherry is included from 1954-55.

Counterfeit trade mark.—Means a tampered, altered or effaced 'trade mark'. A 'trade mark' under the Merchandise Marks Act has the meaning assigned to a "registered trade mark" as defined in the Trade Marks Act, 1940 or a mark used to indicate a connection between the goods and a person having the right as a proprietor to use the mark.

False trade description.—A trade description which, as applied to goods, is untrue in a material respect. It includes every alteration of a trade description, whether by way of addition, effacement or otherwise. 'Trade description' means any description, statement or other indication direct or indirect—

- (a) as to the number, quantity, measure, gauge or weight of any goods, or
- (b) as to the place or time of production, or
- (c) as to the mode of manufacturing any goods, or composition thereof or
- (d) as to any goods being the subject of an existing patent, privilege or copyright.

Use of any mark which, according to the custom of the trade, is commonly taken to be an indication of any of the above matters is also a trade description within the meaning of this Act.

Place of origin.—It is also obligatory under the Act that the goods should bear an indication of the country or place in which they were made or produced. Non-description or false description of the place of origin constitute an offence under the Act. This does not apply to goods imported for the purposes of re-export.

Stamping of piece-goods, cotton yarn and thread.—Under the requirements of the Act, all piece-goods should be conspicuously stamped in English numerals with the real length in standard yards and fraction thereof on each piece. Cotton yarn sold in bundles and cotton thread for sewing, darning, crochet or handicraft should also be conspicuously marked with weight and count of the yarn contained in each bundle and with the length or weight of the thread contained in each unit. Each piece of piece-goods, each bundle of yarn and each unit of thread should also be conspicuously marked with the name of the manufacturer or the wholesale purchaser in India of the goods.

Goods sold for export and those produced in establishments employing not more than 10 persons (not more than 20 persons in case of co-operative societies) are exempted from the provisions of this Act.

(b) 13 cases were under action.

NOTE—Figures for Delhi included from the year 1951-52, and for Pondicherry from 1954-55.

TRADE

(A) FOREIGN TRADE

Imports—(Tables 247, 248, 251, 252, and 254.)

Import figures generally show the trade as declared by importers in the bills of entry (applications for clearance) and as checked by customs officials.

Goods entered for storage in bonded warehouses and afterwards exported therefrom are included under 'imports' and 're-exports'. Transshipment trade is not recognised for the purpose of Indian trade returns and is thus not included here.

Trade of foreign countries on the border of India passing in transit through Indian ports on through bills of lading from and to overseas countries is included under 'imports' and 're-exports' respectively.* The transit trade of Pakistan has, however, been excluded from the general import and re-export with effect from April, 1952.

Imports of passengers' baggage are not included unless they are dutiable.

All articles imported from foreign countries by parcel post are included so also articles received by letter post, if they are dutiable.

Exports and re-exports (Tables 247, 249, 250, 251, 253, and 255.)

Export figures represent the trade as declared in the manifests of vessel cleared which have been received and scrutinized with reports of notice of short shipment up to the last working day of the month or as near to that as is practicable but not earlier than 26th of the month. During the year 1951-52, however, a revised procedure for the registration of export trade statistics was adopted. The export trade statistics are now being compiled on the basis of trade as declared in the shipping bills passed up to the last working day of the months with necessary adjustments on account of short shipments. The figures of exports relate to Indian merchandise alone as distinct from exports of foreign merchandise which are classed as re-exports.

*Total value of such trade is also shown separately in the *Monthly Accounts Relating to the Foreign Trade and Navigation of India* with effect from April 1949.

(A) FOREIGN TRADE—*contd.*

All articles despatched to foreign countries by parcel post are included but the contents of foreign letters despatched are not registered.

Classification of trade by countries (Tables 248, 249, 250, 254 and 255).

Imports are classified with reference to the countries whence they were consigned to India and not with reference to the countries whence they were shipped direct to India. The country of consignment is defined as that from which the goods have come whether by land and sea or by sea only or by air, without interruption of transit save in the course of transhipment or transfer from one means of conveyance to another. Thus the countries whence goods are consigned are not in all cases the countries of actual origin of goods since goods produced in one country may be purchased by a firm in another country and thence despatched after an interval to India.

Exports are credited to the country of final destination as declared by exporters in the shipping bills whether that country possesses a sea-board or not. The country of final destination is defined as that to which goods exported from India are intended to pass whether by sea and land or by sea only or by air without interruption of transit, save in the course of transhipment or transfer from one means of conveyance to another.

From January 1957 silver is included in merchandise trade. Simultaneously, as a result of the introduction of the Standard International trade classification, it has been found necessary to delete quantity figures of all items of Merchandise.

The figures denote values declared by importers and exporters in entry and shipping bills. The value of goods represents (i) the wholesale cash price less trade discount for which goods of the like kind and quality are sold or are capable of being sold at the time and place of importation or exportation, as the case may be, without any abatement or deduction whatever, except (in the case of goods imported) of the amount of duties payable on the importation thereof; or (ii) where such price is not ascertainable the cost at which the goods of the like and quality could be delivered at such place without any abatement or deduction except as aforesaid. Import valuation in practice corresponds to c.i.f. method, but export valuation was prior to April 1951, not strictly on f.o.b. basis as it did not take into account export duties and such items as dock charges, cost of transport, etc., up to the vessel. With effect from April 1951, however, the basis of export valuation has been changed so as to conform strictly to f.o.b. basis inclusive of export duty and/or cess where leviable.

CURRENCY AREAS :—(Table 251). The following classification has been adopted for the year 1956-57.

Dollar Area :—United States of America, Canada (including Newfoundland and Labrador), Cuba, Haiti, Dominican Republic, Porto Rico, Virgin Islands of the United States, Mexico, Guatemala, Honduras (not British), Salvador, Nicaragua, Costa Rica, Columbia, Republic of Panama, Panama Canal Zone, Venezuela, Ecuador, Bolivia, Hawaii, Philippines, Liberia and American Samoa.

Sterling Area :—All Commonwealth Countries (excluding Canada) together with Irish Republic, Iceland, Jordan, Muscat and Oman, Iraq and Burma.

(A) FOREIGN TRADE—*contd.*CURRENCY AREAS—*contd.*

Other Soft Currency Area.—All other countries.

Currency area figures include the latest adjustments and therefore do not always tally with the preceding figures.

TREASURE (Tables 254 and 255).

Imports and exports of gold are recorded separately under 'treasure' as distinct from 'merchandise'. The value of gold represents the market value at the time and place of import or export, as the case may be.

INDEX NUMBERS OF DECLARED VALUES AND QUANTUM OF TRADE (Table 256)

For figures up to 1948-49, the original base is the year ending March 1928 but converted to the year ending March 1939. Owing to far-reaching changes in the pattern of trade as well as in the coverage of the statistics, especially after Partition, a new series calculated with reference to year ending March 1949 as base, was introduced with effect from 1949-50. Re-export trade, which was excluded from the old series was included in the export trade for the purpose of the index.

To fit in with the current pattern of India's foreign trade, a revised series with 1952-53 as base has now been introduced with effect from 1953-54. Re-export trade has been excluded from the Export Index. The revised series covers trade by all routes *i.e.* by Sea, Air and Land.

Declared Values

Index numbers of declared values are constructed so as to show the changes in the unit values of articles imported or exported.

The method of calculation consists in revaluing the trade of the current period at the prices prevailing in the base period and then in comparing the recorded value of the current period with the corresponding value recalculated on the above basis. Thus, if the price and quantity of any article in the base period be denoted by p_0 and q_0 and the corresponding figures for the period under consideration by p_n and q_n the price index (P_n) may be defined symbolically as :

$$P_n = \frac{\sum p_n q_n}{\sum p_0 q_n} \times 100$$

In actual practice the calculation has to be based on a selected number of items, *i.e.*, those for which both quantity and value figures are recorded in the trade returns. In the case of the old series (1938-39=100), it was assumed that the average price changes of the omitted articles (*i.e.*, those directly not made use of in the calculation) were the same as those of the selected articles. But in the series (base 1948-49=100), the omitted items were assumed to follow the movements of related articles. The total numbers of imported and exported items (or articles) taken into account in the calculation of the old series were 161 and 76 respectively having a coverage of 78 per cent of the import trade and 93 per cent of the export trade during 1927-28. The items directly taken into account in the calculation of the second series numbered 216 for imports and 115 for exports (including re-exports), with a coverage of over 69 per cent of the import trade and 93 per cent of the total export and re-export trade during the base year 1948-49. The commodities included in the revised index (1952-53=100) account for 92% of the total trade of India by sea, air and land in respect of export trade and 73% of the import trade.

(A) FOREIGN TRADE —concl'd.

Quantum of Trade

Quantum indices are designed to show the movements in the aggregate value of imports and exports after elimination of the effect of price changes. The quantum index (Q_n) can be defined as below :—

$$Q_n = 100 \times \frac{\sum p_0 q_n}{\sum p_0 q_0}$$

where p_0 , q_0 and q_n have the same meaning as given earlier under "Declared Values".

By Sea, Air and Land

The figures represent trade with foreign countries both on private and Government accounts, registered at Indian Sea and Air ports, including also land frontier trade with Pakistan, Afghanistan Iran and Burma as registered at the Land customs lines.

The foreign trade of Kutch was first included in June 1948, of Travancore, Saurashtra and Okha in April 1949 and that of Delhi Air Port from April 1950.

From 1949-50, goods imported or exported for use of the Defence Services or for Defence purposes are included but recording is still incomplete.

Overall Balance of Trade (Table 257).

From April 1948 total values of foreign trade of India by all routes (i.e., sea, air and land) have been taken into account for purpose of calculating the balance of trade. Balance of trade in treasures is in gold and silver only.

Land Frontier Trade (Tables 258 and 259).

This portion deals with the trade with Tibet, Nepal, Sikkim and Bhutan as recorded at certain railway stations adjacent to the land frontier routes in the absence of a customs barrier. Only quantities are shown. Values are not recorded at present.

TRADE

(B) COASTING TRADE

(Tables 260 and 261)

Coasting trade statistics represent the trade registered at the ports in States (old Provinces), that is, the trade between one State (old Province) on the one side and all other States (old Provinces and former Indian States, such as Kutch, Travancore etc.) *plus* certain other ports on the Indian coast (*e.g.*, French Ports, Goa, etc.) on the other. The trade among ports within the same State has not been included into the table presented here. Cochin Port which was a part of Madras block prior to April 1951 has from that date been constituted into a separate bloc.

For the purposes of trade and tariff, Pakistan was declared to be a foreign country with effect from 1st March 1948, and hence the coasting trade of India with Pakistan ports is excluded from that date.

The figures show generally the trade as declared in the shipping documents duly scrutinised and passed through the custom houses. The term 'Indian merchandise' comprises all goods that are of the growth, produce or manufacture of India. Indian merchandise is distinguished from foreign merchandise in the declaration of importers or exporters made in the Bills of entry or shipping bills from which the trade statistics are compiled. Passengers' baggage, postal transactions and merchandise transhipped at Custom ports are excluded from the scope of these statistics. Imports and exports of treasure which include gold and silver (bullion and coin) only are recorded separately and are not included in the figures of merchandise. From 1948-49, the distinction between private merchandise and Government stores has been abolished and combined figures of trade under both these categories are published.

In the values of articles imported or exported as recorded in the coasting trade, customs and excise duties previously paid are included.

The year refers to the period of twelve months, April to March.

(C) INLAND TRADE

(Table 262)

Nature and Scope.—Inland trade statistics represent only the movement of the trade, by railways and steamer services, into and from a State (old Province or Indian State) taken as a whole or a chief port or ports, the trade of which is registered separately from that of the State (old Province or Indian State) in which such port or ports may be situated. Movement of the trade by other means (*e.g.*, road, air, country boats, etc.) is thus excluded from the scope of these statistics.

Method of Registration.—The statistics are recorded on 'import basis'. According to the arrangement in force, each of the railways register such traffic as is received at stations on its line within a particular trade block from other trade blocks, without taking into account the traffic *en route* to a destination on a different railway system or to a station on the same system but located outside that trade block. With a view to reducing the number of returns, imports into the station on the minor railways are recorded by the major railways connecting them.

For river-borne trade, the following traffic is recorded by the agent of the different steamer services concerned : (i) between Calcutta on one hand and Assam, West Bengal (*excluding* Calcutta), Bihar, and Uttar Pradesh on the other, (ii) between West Bengal (*excluding* Calcutta) on one side and Assam, Bihar and Uttar Pradesh on the other, (iii) between Assam on one hand and Bihar and Uttar Pradesh on the other hand (iv) between Bihar and Uttar Pradesh.

The traffic carried partly by rail and partly by river, when booked through and carried by steamers running in connection with railways, is to be recorded generally by the railway administration concerned.

Articles and unit of measurement.—The trade in certain staple articles only is recorded in the standard mds. of 82½ lbs. The weight recorded is the net weight, *i.e.*, the gross weight entered in the invoices less certain fixed percentages which have been taken to represent the weight of packings, etc. Values are not recorded. Figures of oilseeds represent the trade in the following varieties (i) castor, (ii) cotton, (iii) groundnuts, (iv) linseed, (v) rape and mustard and (vi) til or jinjili. Cotton piece-goods include both Indian and foreign cloth. Jute raw, includes both loose and pucca bales. Raw cotton figures do not make a distinction between ginned or unginned.

Period covered.—Figures relate generally to the financial year, April to March ; but in the case of cotton raw, figures relate to the cotton year September to August.

Trade Blocks.—Prior to April 1955, there were only 20 Trade Blocks. The list had to be revised because of the separation of Andhra from Madras, the *de facto* transfer of Pondicherry and Karikal from French to Indian Administration and the need felt for separate figures of the trade of each state. India has now been divided, for purposes of internal trade, into 36 Trade Blocks with effect from April, 1955. The figures for the year 1956-57 are shown in details whereas only annual totals are shown for the earlier years.

BALANCE OF PAYMENTS

The tables relate to Indian Union and include transactions with Pakistan.

Figures are based largely on the records of the Exchange Control Department of the Reserve Bank of India.

Other details are as below

CURRENT ACCOUNT

Merchandise.—The figures include estimates of unrecorded imports paid with Indian currency notes but exclude transactions under Government barter deals. Imports are c.i.f. and exports f.o.b.

Transportation Services.—Receipts include charges, etc., met by foreign ships in Indian ports, while payments cover operating expenses abroad of Indian Steamship companies and some freight payments.

Investment income.—Receipts include interest and discount on the investments of the Reserve Bank of India.

Government Services not included elsewhere.—The payment figures represent disbursements of the Government such as those for the upkeep of its offices abroad as also contributions to international organisations.

Miscellaneous (Services).—This item covers, in the main, receipts and payments for services such as those for agency services and film rentals and maintenance of estates.

Donations.—These are mainly unilateral transfers like maintenance allowances and remittances received by missionaries. Also include aid received under Colombo Plan and Indo-U. S. Technical Co-operation Agreement.

Sterling area.—All Commonwealth countries (*excluding* Canada and Newfoundland) together with Burma, Iraq, Jordan, Muscat & Oman, Irish Republic and Iceland.

Dollar Area.—Covering United States of America, Canada (*including* Newfoundland), Cuba, Haiti, Dominican Republic, Porto Rico, Virgin Islands of the United States, Mexico, Guatemala, Honduras (not British), Salvador, Nicaragua, Costa Rica, Colombia, Republic of Panama, Panama Canal Zone, Venezuela, Ecuador, Bolivia, Hawaii, Philippines, Liberia, and American Samoa. Figures for 1951 and 1952 refer to "Hard Currency Area" comprising the United States of America, other American Account Countries, Canada, Liberia, Argentina and Japan. The last two ceased to be hard currency countries from January 1951 and October 1951, respectively.

CAPITAL ACCOUNT

Figures exclude the movement in balances of private companies having head offices or branches abroad but include the movement in rupee balances of non-resident individuals.

Portfolio securities.—Includes repatriations of sterling stock and movements in rupee securities held by foreigners on the liabilities side. The entries on the assets side relate to changes in long-term sterling securities

Other liabilities (short-term) to official and banking institutions.—Represent movement in rupee balances held by non-resident banks and official institutions and movements in exchange liabilities of authorised dealers.

Other (short-term).—Includes, among other things, changes in the sterling assets of the Reserve Bank of India, but from this the amount transferred to Pakistan is excluded. Also includes releases of financial assets of ex-enemy countries.

N.B.—Owing to slight discrepancies due to rounding, the component figures in the table may not in all cases add up exactly to the totals shown.

MISCELLANEOUS

Electricity

Figures relate to installed plant capacity, generations and sales by the public utility electric supply undertakings in the Indian Union including Jammu and Kashmir, whether owned by government, local authorities or companies. Military and factory power stations are excluded as also Railway Power Stations (with the sole exception of Chola Power Station, Bombay, which is inter-connected with the Tata power system). Figures for generation include purchases from non-public utilities for public supply. Statewise details are given for their latest year.

Table 265.—This table gives an analysis of installed plant capacity according to type of plant. In the same table the total kilowatt hours generated and sold to ultimate consumers are also stated.

Table 266.—This table gives a general idea of the consumption of electricity for different purposes.

Salt

Table 267.—Shows the sources of supply, stocks at the beginning of the year, salt manufactured by Government and otherwise, and total issues of locally manufactured salt (including wastage). Figures of production by unlicensed small scale manufacturers are given separately. In the same table the average selling price (at factory) of salt including cess is also shown.

Liquor and Intoxicating Drugs

Table 268.—Shows the number of shops licensed for the sale of liquors or other intoxicating drugs according to states.

Opium

Table 269.—Shows the kind of opium (excise, raw or medical) issued for local consumption or for export. The quantity of each kind of opium remaining in store at the close of the year is also specified in this table.

Table 270.—Gives an account of the area of cultivation and total production of Banaras and Malwa opium. Figures upto 1950-51 relate to Banaras opium only.

APPENDIX A (i)

RATES OF UNION EXCISE DUTIES—*contd.*

Item No.	Description of Goods	Rate of Duty
4	MOTOR SPIRIT— “ Motor spirit ” means— (i) any mineral oil (excluding crude mineral oil) which has its flashing point below seventy-six degrees of fahrenheit's thermometer and which either by itself or in admixture with any other substance is suitable for use as fuel for internal combustion engines; and (ii) power alcohol, that is to say ethyl alcohol of any grade (including such alcohol when denatured or otherwise treated), which either by itself or in admixture with any other substance, is suitable for being used as aforesaid.	One rupee and twenty-five naye paise <i>per imperial gallon</i>
5.	SALT*	
6.	SILVER	Three annas and seven and one fifth pice <i>per ounce Troy</i> .
7.	STEEL INGOTS	Forty Rupees <i>per ton</i> .
8.	SUGAR PRODUCED IN FACTORY ORDINARILY USING POWER IN THE COURSE OF PRODUCTION OF SUGAR— “ Sugar ” means any form of sugar containing more than ninety per cent. of sucrose— (1) Sugar other than Khandsari or Palmyra (2) Khandsari Sugar—that is to say, sugar in the manufacture of which neither a vacuum pan nor a vacuum evaporator is employed. (3) Palmyra sugar—that is to say sugar manufactured from jaggery obtained by boiling the juice of the palmyra palm.	Eleven rupees and twenty five naye paise <i>per cwt.</i> Fifty naye paise <i>per cwt.</i> <i>Nil.</i>
§9.	TOBACCO— “ Tobacco means any form of tobacco, whether cured or uncured and, whether manufactured or not, and includes the leaf, stalks and stems of the tobacco plant, but does not include any part of a tobacco plant while still attached to the earth.	
1.	Unmanufactured tobacco	<i>per lb.</i>
	(i) If flue cured and used in the manufacture of cigarettes containing— (i) more than 60 per cent. weight of imported tobacco (ii) more than 40 per cent. but not more than 60 per cent. weight of imported tobacco. (iii) more than 20 per cent. but not more than 40 per cent weight of imported tobacco. (iv) 20 per cent, or less than 20 per cent. weight of imported tobacco.	Seven rupees and fifty naye paise Five rupees. Three rupees and fifty naye paise. Two rupees and fifty naye paise.

*The excise duty on Salt has been withdrawn *vide* the Indian Finance Act, 1953.

§Item 9 was substituted by the Finance Act, 1951.

APPENDIX A (i)

RATES OF UNION EXCISE DUTIES—*contd.*

Item No.	Description of Goods	Rate of Duty
9. TOBACCO— <i>contd.</i>		
1.	Unmanufactured Tobacco— <i>contd.</i>	<i>Per lb.</i>
	(v) no imported tobacco	One rupee.
	(2) if flue cured and used for the manufacture of smoking mixtures for pipes and cigarettes.	Seven rupees and fifty naye paise.
	(3) if flue cured and not otherwise specified	One rupee.
	(4) if other than flue cured and used for the manufacture of (a) cigarettes or (b) smoking mixture for pipes and cigarettes.	Seventy-five naye paise.
	(5) if not flue cured, and not actually used for the manufacture of (a) cigarettes (b) smoking mixtures for pipes and cigarettes—	Fifty naye paise.
	(i) Stems of tobacco larger than 1/4 inch and stems of tobacco not larger than 1/16 inch in size.	
	(ii) dust of tobacco.	
	(iii) granule ('rawa') of tobacco not larger than 1/16 inch square in size.	
	(iv) tobacco cured in whole leaf form and packed or tied in bundles banks or bunches or in the form of twists or coils.	
	(6) if other than flue cured and not otherwise specified	One rupee.
	(7) if used for agricultural purposes	Nil.
	(8) Stalks	One anna.
11.	Manufactured Tobacco—	
(1)	Cigars and cheroots of which the value—	<i>Per hundred.</i>
	(i) exceeds Rs. 30 a hundred	Twelve rupees.
	(ii) exceeds Rs. 25 a hundred but does not exceed Rs. 30 a hundred.	Ten rupees.
	(iii) exceeds Rs. 20 a hundred but does not exceed Rs. 25 a hundred	Eight rupees.
	(iv) exceeds Rs. 15 a hundred but does not exceed Rs. 20 a hundred	Six rupees.
	(v) exceeds Rs. 10 a hundred but does not exceed Rs. 15 a hundred	Four rupees.
	(vi) exceeds Rs. 5 a hundred but does not exceed Rs. 10 a hundred	Two rupees.
	(vii) exceeds Rs. 2.50 nP. a hundred but does not exceed Rs. 5 a hundred	One rupee.
	(viii) exceeds Rs. 1.25 nP. a hundred but does not exceed Rs. 2.50 nP. a hundred	Fifty naye paise
	(ix) exceeds 75 nP. a hundred but does not exceed Rs. 1.25 nP. a hundred.	Twenty five naye paise.
(2)	Cigarettes of which the value—	<i>Per thousand.</i>
	(i) exceeds Rs. 50 a thousand	Twentyone rupees and fifty naye paise.
	(ii) exceeds Rs. 35 a thousand but does not exceed Rs. 50 a thousand	Nineteen rupees.

APPENDIX

APPENDIX A (i)

RATES OF UNION EXCISE DUTIES—*contd.*

Item No.	Description of Goods	Rate of Duty
	(iii) exceeds Rs. 30 a thousand but does not exceed Rs. 35 a thousand	Ten rupees and fifty naye paise
	(iv) exceeds Rs. 25 a thousand but does not exceed Rs. 30 a thousand	Nine rupees and fifty naye paise.
	(v) exceeds Rs. 20 a thousand but does not exceed Rs. 25 a thousand	Six rupees and fifty naye paise.
	(vi) exceeds Rs. 15 a thousand but does not exceed Rs. 20 a thousand	Five rupees and fifty naye paise.
	(vii) exceeds Rs. 10 a thousand but does not exceed Rs. 15 a thousand	Two rupees and seventy five naye paise.
	(viii) exceeds Rs. 7.50 nP. a thousand but does not exceed Rs. 10 a thousand	One rupee and fifty naye paise.
	(ix) does not exceed Rs. 7.50 nP. a thousand	One rupee.
10	TYRES—	
	"Tyre" means a pneumatic tyre in the manufacture of which rubber is used and includes the inner tube and the outer cover of such a tyre.	
	(1) Tyres for motor vehicles	30 per cent <i>ad valorem</i> .
	(2) All other tyres	15 per cent <i>ad valorem</i>
11.	VEGETABLE PRODUCTS—	
	"Vegetable product" means any vegetable oil or fat which whether by itself or in admixture with any other substance, has by hydrogenation or by any other process been hardened for human consumption.	Seven rupees per cwt.
12.	COTTON FABRICS—	<i>Per square yard.</i>
	"Cotton fabrics" means all varieties of fabrics manufactured either wholly or partly from cotton and include dhoties, sarees, chadars, bed-sheets, bed-spreads, counterpanes and table-cloths, but do not include any such fabric—	
	(a) if it contains 40 per cent., or more by weight of wool.	
	(b) if it contains 60 per cent. or more by weight of rayon or artificial silk, or	
	(c) If manufactured on a handloom.	
	(1) Cotton fabrics, superfine—	
	that is to say, fabrics in which the average count of yarn is 48s or more.	Two annas and six pies.
	(2) Cotton fabrics, fine—	
	that is to say, fabrics in which the average count of yard is 35 s or more but is less than 48s.	One anna and nine pies.
	(3) Cotton fabrics, medium—	
	that is to say, fabric in which the average count of yard is 17s or more but is less than 35s.	One anna.
	(4) Cotton fabrics, coarse—	
	that is to say, fabrics in which the average count of yard is less than 17s—	
	(a) Dhoties and sarees	Six pies.
	(b) all other sorts	one anna.

APPENDIX

811

APPENDIX A (i)

RATES OF UNION EXCISE DUTIES—*contd.*

Item	Description of goods	Rate of duty
12A. *RAYON OR ARTIFICIAL SILK FABRICS—		
	" Rayon or Artificial silk fabrics" include all varieties of fabrics manufactured either wholly or partly from rayon or artificial silk, but do not include any such fabric—	Six pice per square yard
	(i) if it contains 40 per cent. or more by weight of wool;	
	(ii) if it contains cotton and less than 60 per cent. by weight of rayon or artificial silk;	
	(iii) if it contains no cotton and less than 40 per cent. by weight of wool and less than 40 per cent by weight of rayon or artificial silk;	
	(iv) if manufactured on a handloom.	
12B.** WOOLLEN FABRICS—		
	" Wollen fabrics " mean all varieties of fabrics manufactured wholly of wool or which contain 40 per cent or more by weight of wool and include blankets, lohis, rugs and shawls, but do not include any sub fabric. —	Six and a quarter per cent. ad valorem.
	(i) if manufactured on a handloom;	
	(ii) if manufactured by or on behalf of the same person in one or more factories in which less than five power looms in all installed.	
13 COFFEE CURED—		
	" Coffee " means the seed of the coffee tree (coffee), whether with or without husk, whether cured or uncured, but does not include the seed while still attached to the tree.	Three annas per lb.
14 TEA —		
	" Tea " includes all varieties of the product known commercially as tea and also includes green tea.	Per lb. net.
	(i) Packages tea, that is to say, tea packed in any kind of container containing not more than 60 lbs. net of tea—	
	(i) If, before, being so packed, duty has been paid thereon under sub-item (2) of this Item.	Three annas.
	(ii) if, before being packed, duty has not been paid thereon under sub-item (2) of this Item.	Twenty five naye paise
	(2) Tea not otherwise specified	One anna.
*15 CEMENT—		
	All varieties	Twenty Rupees per ton
*16] SOAP—		Per cwt
	" Soap " means all varieties of the product known commercially as soap—	
I. Soap, in or relation to the manufacture of which any process ordinarily carried on with the aid of power or of steam for heating—		
	(1) Soap, household and laundry—	
	(i) plain bars of not less than one pound in weight	Rupees five and twenty five naye paise
	(ii) other sorts	Rupees six and annas two.
	(2) Soap, toilet	Rupees fourteen
	(3) Soap, other than household and laundry or toilet .	Rupees fourteen
II Soap, in or in relation to the manufacture of which no process has been carried on with the aid of power or of steam for heating—		
	(i) Plain bars of not less than one pound in weight	Rupees four and fifty naye paise
	(ii) Other sorts	Rupees five and twenty five naye paise

*These items were inserted by the Indian Finance Acts, 1954.

**This item was inserted by the Indian Finance Act, 1955.

@These items were inserted by the Indian Finance Act, 1944.

APPENDIX A (i)

RATES OF UNION EXCISE DUTIES—*contd.*

Item No.	Description of goods	Rate of duty
*17 FOOTWEAR—		
	Produced in any factory, including the precincts thereof whereon fifty or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power of is ordinarily so carried on, the total equivalent of such power exceeding two horsepower.	
	"footwear" includes all varieties of footwear, whether known as boots, shoes, sandals, chappals or by any other name.	Ten Per cent <i>ad valorem</i> .
**18 ELECTRIC FANS—		
	including air circulators but excluding those which are designed for use in an industrial system as parts indispensable for its operation and have been given for that purpose some special shape or quality which would not be essential for the use for any other purposes, and parts of such electric fans—	
	(1) Table cabin, carriage, pedestrian and air circulator fans not exceeding sixteen inches.	Five rupees per fan.
	(2) All other fans	Ten rupees per fan.
	(3) Parts of fans above, the following namely, complete motors stators and rotors—	
	(a) if designed for use in respect of any fan falling within sub-item (1)—	
	(i) complete motors	Three rupees per motor.
	(ii) Stators	One rupee and fifty naye paise per stator.
	(iii) Rotors	One rupee and fifty naye paise per rotor.
	(b) if designed for use in respect of any fans falling within sub-item (2).—	
	(i) Complete motors	Six rupees per motor.
	(ii) Stators	Three rupees per stator.
	(iii) Rotors	Three rupees per rotor.
**19 ELECTRIC LIGHTING BULBS AND FLOURSCENT LIGHTING TUBES—		
	(1) Vacuum and gas-filled bulbs.—	
	(i) not exceeding 100 watts and train lighting bulbs	One anna per bulb.
	(ii) exceeding 100 watts but not exceeding 300 watts, and engine headlight bulbs	Twenty five naye paisae per bulb
	(iii) exceeding 300 watts.	Fifty naye paise per bulb
	(2) Fluorescent tubes	Twenty-five naye paise per foot
	(2) Bulbs not otherwise specified	Twenty-five naye paise per bulb
**20 ELECTRIC BATTERIES AND PARTS THEREOF—		
	(1) Dry	Ten per cent. <i>qd valorem</i>
	(2) Storage	Ten per cent. <i>ad valorem</i>
	(3) Parts of storage batteries, the following namely containers, covers and plates	Ten per cent. <i>ad valorem</i>
**21 PAPER—		
	All sorts, including pasteboard, millboard, straw-board and cardboard in or in relation to the manufacture of which any process is ordinarily carried on with the aid of powers :—	
	(1) blotting, toilet, target, tissue other than cigarette tissue, teleprinter, typewriting, manifold, bank bond, art paper, chrome paper, tubsized papers, cheque papers, Stamp paper, cartridge papers, and parchment	Fifteen naye paisa.
	(2) Cigarette tissue	Thirty naye paise.

**These items were inserted by the Indian Finance Act, 1955.

APPENDIX A (i)

RATES OF UNION EXCISE DUTIES—*contd.*

Item No.	Description of Goods	Rate of duty
(3)	Printing and writing paper	Ten naye paise
(4)	Packing and wrapping paper other sorts	Ten naye paise.
(5)	Mill board and straw boards other than corrugated board	Five naye paise
(6)	Duplex and triplex board	Ten naye paise.
(7)	Pulp board	Ten naye paise.
(8)	Manilla and corrugated board	Ten naye paise.
(9)	Coated board (including arts Chrome and board for playing cards)	Fifteen naye paise.
(10)	Paper and paper board all sorts, not otherwise specified.	Fifteen naye paise.
••22	PIGMENTS, COLOURS, PAINTS, ENAMELS, VARNISHES, BLACKS AND CELLULOSE LAQUERS.	
I.	Pigments colours, paints and enamels, all sorts—	
(1)	Zinc oxide, red lead, white lead and titanium dioxide	Eight rupees per cwt.
(ii)	Aluminium paste	Twenty-five naye paise. Per lb*
(2)	Dry colours, namely, the following lead chromes, and burnswick green.	Seven rupees per cwt. in the case of a manufacturer whose output of dry colours exceeds 100 tons per year ; Five rupees per cwt. in the case of a manufacturer whose output of dry colours exceeds 10 tons but does not exceed 100 tons per year ; and Nil, in the case, for a manufacturer whose output of dry colours does not exceed 10 tons per year.
	Water paints—	
(i)	Dry distemper including cement—based water paints	Seven rupees per cwt. in the case of a manufacturer whose output of water paints exceeds 100 tons per year ; Five rupees per cwt. in the case of a manufacturer, whose output of water paints does not exceed 100 tons per year ;
(ii)	Oil-bound distemper	Twelve rupees per cwt. in the case of a manufacturer whose output of water paints exceeds 100 tons per year ; Nine rupees per cwt. in the case of a manufacturer whose output of water paints does not exceeds 100 tons per year ;
(iii)	Water pigment finishes for leather	One rupee and fifty naye paise per imperial gallon in the case of a manufacturer whose output of water paints exceeds 100 tons per year. One rupee and two annas per imperial gallons in the case of a manufacturer whose output of water paints does not exceeds 100 tons per year.

*The item was inserted by the Indian Finance act, 1955.

APPENDIX A (i)

RATES OF UNION EXCISE DUTIES—*contd.*

Item No.	Description of goods	Rate of duty
**22. PIGMENTS, COLOURS, PAINTS, ENAMELS VARNISHES, BLACKS AND CELLULOSE LACQUERS—<i>contd.</i>		
1. Pigments, colours, paints and enamels all sorts— <i>contd.</i>		
(3) Water paints— <i>Contd.</i>		
	(iv) Plastic emulsion paint	Three rupees and fifty naye paise per imperial gallon in the case of a manufacturer whose output of water paints exceeds 100 tons per year; Two rupees and fifty naye paise per imperial gallon in the case of a manufacturer whose output of water paints does not exceed 100 tons per year ;
(4) Oil paints and enamels—		
	(i) Tinting paste (Blue)	Twenty-five naye paise per lb in the case of a manufacturer whose output of oil paints and enamels exceeds 1,000 tons per year; Three annas per lb in the case of a manufacturer whose output of oil paints and enamels does not exceed 1,000 tons per year ;
	(ii) Stuffs, paints and ready-mixed paints sold by weight	Seven rupees per cwt. in the case of a manufacturer whose output of oil paints and enamels exceeds 1,000 tons per year ; Five rupees per cwt. in the case of a manufacturer whose output of oil paints and enamels, does not exceed 1,000 tons per year ;

RATES OF INCOME TAX AS ON 1ST APRIL 1957

PART I

Income-tax and surcharge on income-tax

(f) In the case of every individual who is married and every Hindu undivided family whose total income does not exceed Rs. 20,000 in either case.

PARAGRAPH A

Rates of Income-tax

Where the individual has no child wholly or mainly dependent on him or where the Hindu undivided family has no minor coparcener	Where the individual has one child wholly or mainly dependent on him or where the Hindu undivided family has one minor coparcener	Where the individual has more than one child wholly or mainly dependent on him or where the Hindu undivided family has more than one minor coparcener
Rs.	Rs.	Rs.
(1) On the first 3,000 of total income	3,300 of total income	3,000 of total income . Nil
(2) On the next 2,000 of total income	3,700 of total income	4,400 of total income . 3%
(3) On the next 2,500 of total income	2,500 of total income	2,700 of total income . 6%
(4) On the next 2,500 of total income	2,500 of total income	2,500 of total income . 9%
(5) On the next 2,500 of total income	2,500 of total income	2,500 of total income . 11%
(6) On the next 2,500 of total income	2,500 of total income	2,500 of total income . 14%
(7) On the next 5,000 of total income	2,500 of total income	2,500 of total income . 18%

(f) In the case of every individual who is not married and every individual or Hindu undivided family whose total income in either case exceeds Rs. 6,000 and in the case of a firm or registered firm or other association of persons, not being a case to which paragraph B or Part I, B, C or Paragraph D of this Part applies :—

Rs.

(1) On the first 1,000 of total income	Nil
(2) On the next 4,000 of total income	3%
(3) On the next 2,500 of total income	6%
(4) On the next 2,500 of total income	9%
(5) On the next 2,500 of total income	11%
(6) On the next 2,500 of total income	14%
(7) On the next 5,000 of total income	18%
(8) On the balance of total income	25%

Provided that for the purposes of this paragraph—

- the income-tax shall be payable on total income which does not exceed the limit specified below;
- the income-tax payable shall in no case exceed half the amount by which the total income exceeds the said limit;
- the income-tax payable in an individual who is married or a Hindu undivided family whose total income exceeds in either case Rs. 20,000 shall not exceed the aggregate of—
 - the income-tax which would have been payable if the total income had been Rs. 20,000.
 - half the amount by which the total income exceeds Rs. 20,000;

The limit of resid shall be—

- Rs. 6,000 in the case of every Hindu undivided family which as at the end of the previous year satisfies either of the following conditions, namely :—

- that it has at least two members entitled to claim partition who are not less than eighteen years of age; or
- that it has at least two members entitled to claim partition who are not lineally descended one from the other and who are not lineally descended from any other living member of the family.

- Rs. 5,000 in every other case.

APPENDIX B—*contd.***Surcharges on Income-Tax.**

The amount of income-tax computed at the rates hereinbefore specified shall be increased by the aggregate of the surcharges calculated as under :—

(a) A surcharge for purposes of the Union equal to the sum of—

(i) five per cent. of the amount of income-tax; and

(ii) where the earned income included in the total income exceeds Rs. 1,00,000, five per cent. of the difference between the amount of income-tax which would have been payable on the whole of the earned income included in the total income if such earned income had been the total income of Rs. 1,00,000;

(b) A special surcharge on unearned income at fifteen per cent of the difference between the amount of income-tax on the total income and the amount of income-tax whole of the earned income, if any included in the total income of such earned income had been the total income :

Provided that—

(i) no surcharge for purposes of the Union shall be payable where the total income does not exceed that limit specified below ;

(ii) no special surcharge on unearned income shall be payable in the case of an assessee whose total income does not include any income from dividend on ordinary shares if his total income does not exceed the limit specified below, and where the total income includes any dividends on ordinary shares, such limit shall be increased by Rs. 1,500 or the amount of the said dividends whichever is less :

Provided further that—

(a) Where the total income includes any dividends on ordinary shares, the surcharge for purposes of the Union and the special surcharge on unearned income shall not in each case exceed half the amount by which the total income exceeds the respective limits applicable in either case ;

(b) the surcharge for purposes of the Union and the special surcharge on unearned income, both together, shall not exceed half the amount by which the total income exceeds the limit specified below ;

The limit aforesaid shall be—

(i) Rs. 15,000 in the case of every Hindu undivided family which satisfies as at the end of the previous year either of the following conditions, namely :—

(a) that it has at least two members entitled to claim partition who are not less than eighteen years of age ; or

(b) that it has at least two members entitled to claim partition who are not lineally descended one from the other and who are not lineally descended from any other living member of the family ;

(ii) Rs. 7,500 in every other case.

Explanation.—For the purposes of this paragraph, in the case of every Hindu undivided family governed by the Mitakshara law, a son shall be deemed to be entitled to claim partition of the coparcenary property against his father, or grand-father notwithstanding any custom to the contrary.

PARAGRAPH B.

In the case of every company and local authority,—

Rates of income-tax

On the whole of the total income 30%

Surcharge on income-tax

The amount of income-tax computed at the rate hereinbefore specified shall be increased by a surcharge of 5 per cent. thereon.

PARAGRAPH C.

(1) In every case in which under the provisions of the Income-tax Act, income-tax is to be charged at the maximum rate,—

Rates of income-tax

On the whole of the total income 25%

Surcharge on income-tax

The amount of income-tax computed at the rate hereinbefore specified shall be increased by a surcharge of 20 per cent. thereon.

(2) In every case in which under the provisions of the Income-tax Act, income-tax is to be deducted at the maximum rate, deduction shall be made from the whole income which is to be subjected to such deduction at the following rates, namely :—

	Rate of income-tax on the whole income	Rate of surcharge on the whole income
In the case of every company	30%	15%
In any other case	25%	5%

APPENDIX B—*contd.*

PARAGRAPH D.

In the case of every registered firm

Rates of income-tax.

(1) One the first Rs. 40,000 of total income	Nil
(2) On the next Rs. 35,000 of total income	5%
(3) On the next Rs. 75,000 of total income	6
(4) On the balance of total income	9%

PART II

Super-tax and surcharge on super-tax.

In the case of every individual, Hindu undivided family, unregistered firm and other association of persons not being a case to which any other paragraph of this Part applies,—

Rates of super-tax.

(1) On the first Rs. 20,000 of total income	Nil
(2) On the next Rs. 5,000 of total income	5%
(3) On the next Rs. 5,000 of total income	15%
(4) On the next Rs. 10,000 of total income	20%
(5) On the next Rs. 10,000 of total income	30%
(6) On the next Rs. 10,000 of total income	35%
(7) On the next Rs. 10,000 of total income	40%
(8) On the balance of total income	45%

Surcharges on super-tax.

The amount of super-tax computed at the rates hereinbefore specified shall be increased by the aggregate of the surcharge calculated as under :—

- (a) A surcharge for purposes of the Union equal to the sum of,—
 - (i) five per cent. of the amount of super-tax ; and
 - (ii) where the earned income included in the total income exceeds Rs. 1,00,000 five per cent of the difference between the amount of super-tax which would have been payable on the whole of the earned income included in the total income, if such amount of super-tax payable on a total income of Rs. 1,00,000 ;
- (b) A special surcharge on unearned income at fifteen per cent. of the difference between the amount of super-tax on the total income and the amount of super-tax on the whole of the earned income of any, included in the total income, if such earned income has been the total income.

PARAGRAPH B.

In the case of every local authority,—

Rate of super-tax.

On the whole of the total income	16%
--	-----

Surcharge on super-tax.

The amount of super-tax computed at the rate hereinbefore specified shall be increased by a surcharge of 12½% thereon.

PARAGRAPH C.

In the case of every association of persons being a co-operative society as defined in clause (53) of section 2 of the Income-tax Act,—

Rate of super-tax.

(1) On the first Rs. 25,000 of total income	Nil
(2) On the balance of total income	16%

Surcharge on Super-tax

The amount of super-tax computed at the rates hereinbefore specified shall be increased by a surcharge of 12½% thereon.

APPENDIX B—*contd.*

PARAGRAPH 1D.

In the case of every company,—

Rates of super-tax

On the whole of the total income 50%
Provided that,—

(i) a rebate at the rate of 40 per cent. on so much of the total income as consists of dividends from a subsidiary Indian company and a rebate at the rate of 35 per cent on the balance of the total income shall be allowed in the case of any company which,—

(a) in respect of its profits liable to tax under the Income-tax Act for the year ending on the 31st day of March, 1958, has made the prescribed arrangements for the declaration and payment within India of the dividends payable out of such profits and for the deduction of super-tax from dividends in accordance with the provisions of sub-section (3D) of section 18 of that Act and

(b) is such a company as is referred to in sub-section (9) of section 23A of the Income-tax Act with a total income not exceeding Rs. 25,000 ;

(ii) a rebate at the rate of 40 per cent. on so much of the total income as consists of dividends from subsidiary Indian company and a rebate at the rate of 30% on the balance of the total income shall be allowed in the case of any company which satisfies condition (a) but not condition (b) of the preceding clause ;

(iii) a rebate at the rate of 10% on so much of the total income as consists of dividends from a subsidiary Indian company and a rebate at the rate of 20% on the balance of the total income shall be allowed in the case of any company not entitled to a rebate under either of the preceding clauses ;

Provided further that—

(i) the amount of the rebate under clause (i) or clause (ii) shall be reduced by the sum, if any, equal to the amount of the aggregate of the amounts, as the case may be, computed as hereunder :—

(a) on that part of the sum arrived at in accordance with clause (i) of the second proviso of paragraph D of Part II of the First Schedule to the Finance Act, 1956, as is referable to 18 of 1956 that amount of bonus shares, bonus or dividends, as the case may be, which has not been deemed to have been taken into account, in accordance with clause (ii) of the said proviso, for the purpose of reducing the rebate mentioned therein to nil.

(b) on the amount representing the face value of any bonus shares or the amount at the rate of 30% of any bonus issued to its shareholders during the previous year with a view to increasing the paid-up capital except to the extent to which such bonus shares or bonus have been issued out of premiums received in cash on the issue of its shares ; and

(c) in addition, in the case of a company referred to in clause (ii) of the preceding proviso which has distributed to its shareholders during the previous year dividends in excess of six per cent. of its paid-up capital not being dividends payable at a fixed rate :—

on that part of the said dividends which exceeds 6 per cent. but does not at the rate of 10%, exceed 10 per cent. of the paid-up capital ;

on that part of the said dividends which exceeds 10 per cent. but does not at the rate of 20%, exceed 18 per cent. of the paid-up capital ;

on that part of the said dividends which exceeds 18 per cent. of the paid-up capital at the rate of 30%.

(ii) where the sum arrived at in accordance with clause (i) of this proviso exceeds the amount of the rebate arrived at in accordance with clause (i) or clause (ii), as the case may be, of the preceding proviso, only so much of the amounts of reduction mentioned in sub-clauses (a), (b), and (c) of clause (i) of this proviso as is sufficient, in that order, to reduce the rebate to nil shall be deemed to have been taken into account for the purpose ;

Provided further that the super-tax payable by a company, the total income of which exceeds rupees twenty-five thousand shall not exceed the aggregate of—

(a) the super-tax which would have been payable by the company if its total income had been twenty-five thousand, and

(b) half the amount by which its total income exceeds rupees twenty-five thousand.

*Explanation :—*for the purposes

(i) the expression "paid-up capital" means the paid-up capital (other than capital entitled to a dividend at a fixed rate) of the company as on the first day of the previous year relevant to the assessment for the year ending on the 31st day of March, 1958, increased by any premiums received in cash by the company, on the issue of its shares, standing to the credit of the share premium account the first day of the previous year aforesaid ;

(ii) the expression "dividend" shall be deemed to include any distribution included in the expression "dividend" as defined in clause (6A) of section 2 of the Income-tax Act ;

(iii) where any portion of the profits and gains of the company is not included in its total income by reason of such portion being exempt from tax under any provision of the Income-tax Act, the "paid-up capital" of the company (the amount distributed as dividends not being dividends payable at the fixed rate) amount representing the face value of any bonus shares and the amount of any bonus issued to the share-holders shall each be deemed to be such proportion thereof as the total income of the company for the previous year bears to its total profits and gains for that year other than capital reduced by such allowances as may be admissible under the Income-tax Act which have not been receipt taken into account by the company in its profits and loss account for that year.

APPENDIX B—*contd.*

APPENDIX D

ELECTORAL STATISTICS

Under the terms of the Indian Constitution there shall be a Parliament for the Union consisting of the President and two Houses to be known respectively as the Council of States, and the House of the People. Similarly in each State, there shall be a legislature consisting of either one House known as the Legislative Assembly or two houses known as the Legislative Council and the Legislative Assembly.

In the following tables an attempt has been made to bring out broadly the salient characteristics of the electorate in the country. For this, the number of voters, constituencies and seats allotted for each State for the purpose of representation in the parliament as also in the State Legislatures have been given.

(i) *Number of voters and Constituencies in each State.*

In this table are shown the number of voters and constituencies in each State for the purpose of election to the Legislative Assembly and the House of the People. The election to the House of the People and to the Legislative Assembly of every State shall be on the basis of adult suffrage; that is to say, every person who is a citizen of India and has attained the age of 21 years, if not otherwise disqualified, shall be entitled to be a voter at any such elections. For the purpose of election to the House of the People, the State have been grouped or formed into territorial constituencies and the number to be allotted for each such constituency has been determined.

The Legislative Assembly of each State is to be composed of members chosen by direct election. The total number of members in the Legislative Assembly of a State shall not in any case be more than 500 or less than 60. The strength of the electoral college in the Union Territories is laid down in the provisions of the Representation of the People Act, 1950.

(ii) *Representation in Legislative Assemblies and two Houses of Parliament.*

In this table the seats allotted in the Legislative Assembly as also in the two Houses of Parliament for each State are given. While all the seats in the Legislative Assembly and the House of the People are to be filled by direct election, in case of the Council of States 12 seats are to be filled through nomination by the President and the rest through election by the elected members of State Legislative Assemblies and Electoral Colleges, according to the quota allotted to each. The method of election in the State Assembly for choosing members for the Council of States will be on the basis of proportional representation by means of the single transferable Vote.

(iii) *Representation in Legislative Councils together with Constituencies for the purpose.*

Representation in the Legislative Council of each State, where there is such a Council, will be confined to Local Authorities, University Graduates and Teachers, Nominees of the Governor and elected representatives of the Legislative Assembly. This table shows the proposed strength of this Council in each State together with the number of constituencies for the purpose of elections.

APPENDIX D—*contd.*(i) *Number of voters and constituencies in each State (General Elections, 1957)*

List of Agents in India from whom Government of India Publications are available (as on 1-1-57)

AGRA

English Book Depot, Taj Road.
Modern Book Depot, 4, Taj Road.
National Book House, Jeonimandi.
Wadhwa & Co., Raja Mandi.

AHMEDABAD

Chandrakant Chimanlal Vora, Gandhi Road.
Hari Har Book Depot.
New Order Book Co., Ellis Bridge.

AJMER

Bookland, 663, Madargate.
Oxford Book Centre, Beawar Road.
Rajputana Book House.

AKOLA

Bakshi, M.G.

ALIGARH

Friends Book House, M. U. Market.

ALLAHABAD

Central Book Depot, 44, Johnston Ganj.
Kitabistan, 17A, Kamla Nehru Road.
Law Book Co., P.B. No. 4, Albert Road.
Ram Narain Lal, 1, Bank Road.
Students' Friends, 224, Hewett Road.
Supdt., Printing & Sty., U. P.
Universal Book Company.
University Book Agency (of Lahore), P.B. No. 63.
Wheeler & Co., A.H.

AMBALA CANTT.

English Book Depot.
Sohan Lal Publications.

AMRITSAR

The Law Book Agency, G.T. Road, Putlighar.

ANAND

Charotar Book Stall, Station Road.

BANARAS

Banaras Book Corporation, University Road.
P.O. Lanka.
Students' Friends, University Gate.

BANGALORE

Bangalore Book Centre, Subedar Chitram Road.
Book Emporium, Messers. S., 118, Mount
Tev Road, Basvenugudi P.O.
Curator, Govt. Book Depot (Director of Ptg. &
Sty. & Pubns).
Standard Book Depot, Avenue Road.
States Business Syndicate, P. B. No. 10.
The Bangalore Press, Lake View, Mysore, P.O.B.
No. 7.
Vichar Sahitya Ltd., Balepet.

BARODA

Good Companions.

BHAGALPUR

Dealers Welfare Syndicate, 13, Anant Ram Lane,
Bhagalpur-2 (Bihar).

BHOPAL

Allied Traders, Motia Park.
Superintendent, State Govt. Press.

BOMBAY

Charles Lambert & Co., P. O. Box No. 1032.
Co-operators Book Depot, 9, Bake House Lane,
Mahatma Gandhi Road.
Current Book House, Hornby Road.
Current Technical Literature Co., Ltd., 133,
Mahatma Gandhi Road.
International Book House Ltd., Ash Lane,
Mahatma Gandhi Road.
Lakhani Book Depot, Bombay-4.
New Book Co., Kitab Mahal, 188-190, Hornby
Road.
